## History of Canada Book Day

Canada Book Day is celebrated in the country each year to promote reading. Canada Book Day is a part of Canada Book Week, which is a larger celebration of Canadian books and reading. During Canada Book Day, readers celebrate by organizing activities that promote reading, purchasing, and patronizing books. This holiday was an initiative of the Writers' Trust of Canada — an organization dedicated to representing and supporting Canadian writers and Canadian literature in the English language.

Canada Book Day, World Book Day, and Copyright Day were established in 1995 by UNESCO. All three days are observed on April 23. Coincidentally, the days also celebrate the works of pioneering authors such as Miguel de Cervantes, William Shakespeare, and Inca Garcilaso de la Vega. Copyright Day is also a celebration of the publishing industry and the crucial role it plays in the advancement of social, cultural, and historical aspects of humanity.

The principal aim of Canada Book Day, World Book Day, and Copyright Day is to raise awareness of the benefits of reading books. This day highlights the potential of books and the crucial role they play in imparting knowledge and values to readers. These days reinforce the idea that books are our windows into different worlds, and they help us be thoughtful and compassionate. On this day, every person, no matter their age, is encouraged to read books. Canada Book Day also acknowledges authors, editors, and publishing industry professionals who work tirelessly to bring us the best of stories.

## Town of The Blue Mountains Council vote against Strong Mayor Powers proposed by the Province

Ontario is proposing to expand strong mayor powers to the heads of council in 169 additional municipalities effective May 1, 2025 to help deliver on provincial priorities, such as building more homes, transit and other infrastructure across Ontario.

Ontario's strong mayor powers, initially introduced for Toronto and Ottawa in 2022, have been gradually rolled out across the province. The province currently has 47 municipalities with these enhanced powers, which have helped to cut red tape and accelerate the delivery of key priorities in their communities. These enhanced powers come with increased accountability for heads of council and maintain essential checks and balances through the oversight of councillors.

## Grey County Council Committee of the Whole, April 11

Council discussed a motion by Councillor Eccles to declare March 24th as **Agnes Macphail Day**. Council was not in favour of making a formal proclamation but spoke highly about Agnes Macphail's legacy and would support more awareness through Grey Roots Museum and other means.

Julie Alexander of **Enbridge Gas** spoke of the company's work as a utility and their role in sustainable energy solutions. Enbridge provides natural gas to 3.9 million people in Ontario. Enbridge also offers resources for building net zero homes and energy conservation retrofits. Enbridge also has offerings for municipalities to help meet climate action goals.

Council approved the replacement of a damaged, end of life **sand dome** with a new structure at a cost of \$1.8 million. The Chatsworth dome was planned for replacement in 2027, but it has partially collapsed due in part to snow load and can no longer be used safely as its structural integrity is compromised. Transportation Services requested permission to expedite construction of a replacement building in 2025.

Council received information on the **Grey County Climate Adaptation plan** and planned public engagement activities in the coming months. More information is available at [www.grey.ca/climate-action](http://www.grey.ca/climate-action).

Council endorsed the draft terms of reference and passed a motion to form a new **Joint Municipal Services** task force. This task force will look at shared approaches to address challenges that municipalities in Grey County experience.

## Notice of Completion - Town-Wide Wastewater Master Plan Environmental Assessment

The Town of The Blue Mountains has completed a Municipal Class Environmental Assessment (MCEA) to complete a Wastewater Master Plan. This Master Plan was completed with sufficient detail to fulfill the requirements for Schedule 'B' projects (Approach 2).

The purpose of this study was to evaluate the Town's long-term wastewater treatment and collection system needs and identify a preferred solution to be implemented to improve the system to accommodate the Town's growth. Recommended projects include:

- Gravity sewer upgrades in Thornbury and Craigeleith, including upgrades to the Little Beaver River Siphon (all projects exempt under MCEA);
- Sewage pumping station (SPS) upgrades at the Mill Street SPS, Alta, SPS and Craigeleith Main Sewage Lift Station (all projects exempt or approved under previous MCEAs)
- New sewage lift station at the Craigeleith Wastewater Treatment Plant (WWTP) (approved under previous MCEA)
- Future WWTP expansions or upgrades (will be subject to subsequent Schedule C MCEA).
