Vol 11 Issue 28

JULY 16TH, 2025

On Saturday, July 12th the 3rd Annual 2.2 km Arts Walk was held from Thornbury - Clarksburg. A very warm day, and well attended.

The Spy Cider House, Clarksburg is hosting the 25th Annual Music in the Park Series from Sunday July 6th to August 17th from 6-8pm.

Parking For Restricted Length of Times in Clarksburg

A request was submitted to Grey County by the Town of The Blue Mountains through Staff Report SI.25.028 to request a change in the two-hour parking limit within the core of Clarksburg. Currently, the By-Law states a window of 8 a.m. to 6 p.m. seven days a week as the time restriction for parking in the village.

Based on suggestions put forward by the Clarksburg Village Association, their preference would be that the restricted time window for two-hour parking occur between 9 a.m. and 4 p.m. excluding Mondays and Tuesdays. The exclusion of Monday and Tuesday is to accommodate seniors' programs hosted at the Marsh Street Centre, and the Clarksburg Village Association supports this, as most businesses in downtown Clarksburg are closed on Mondays and Tuesdays.

Grey County Transportation Services recommends the following revision to Schedule "D" of By-Law 478813. Grey Road No. 13 (Marsh Street Clarksburg) on both sides from the intersection of Hillcrest Drive to a point approximately 100 metres south of Clark Street. Parking Limit is 2 hour parking 9 a.m. to 4 p.m., except for Mondays and Tuesdays where there is no limit.

On-Line Information Centre for Improvements -Hwy. 26

The Town of The Blue Mountains would like to advise the public of an upcoming Online Public Information Centre (PIC) hosted by the Ontario Ministry of Transportation (MTO) regarding a Detail Design and Class Environmental Assessment (Class EA) Study for intersection improvements on Highway 26 within the Town of The Blue Mountains.

The study will include, but is not limited to:

- Installation of traffic signals at the intersection of Hwy 26 & Grey Road 2;
- Replacement of Structural Culvert 473;
- Illumination at the Hwy 26 and Grey Road 113/10th Line intersection; and
- Georgian Trail Realignment at Hwy 26 and Grey Road 2.

The purpose of the PIC is to present the study process, outline the existing conditions, the preferred alternative, and receive input on the proposed improvements within the study area. Please note that there is no formal virtual meeting. Members of the public are encouraged to review the PIC materials available on the project website, and submit their comments during the 30-day comment period, which runs from July 3, 2025 to August 1, 2025.

To learn more about the project, view the PIC material and provide comments, visit the website at www.highway26andgreyroad.com Operations Department, (519) 599-3131 ext. 276

Thank You To Local Businesses for Supporting Ontario Farmers

Brian Saunderson, MPP for Simcoe-Grey was pleased to recognize **Goldsmith's Farm Market & Bakery** and **Foodland Thornbury** with Foodland Ontario Retailer Awards for their commitment to protecting Ontario farmers and local food supply chain by promoting local food. The award recognizes creative produce displays that showcase the bounty of Ontario's local food industry.

"For generations, agriculture has been a major economic driver in our region", said Brian Saunderson, MPP for Simcoe-Grey.

d "From apple orchards and potato fields, to our many family farms, the bounty this area produces is world-class. I offer my congratulations and thanks to both businesses located in The Blue Mountains, as they proudly showcase the exceptional products Simcoe-Grey and Ontario produces."

For more than 35 years, the annual Foodland Ontario Retailer Awards have continued to be the produce industry's signature opportunity to recognize the creative talent of produce managers and staff who build eye-catching displays that promote Ontario-grown and in-season fruits and vegetables.

This year, Foodland Ontario Retailer Awards are presenting 64 awards that recognize 60 grocery stores across the province for their innovative promotion of fresh Ontario food. This annual program runs between January and November and includes four categories of displays that celebrate excellence in retail display and promotion in support of local Ontario foods.

To know when all your local fruits and vegetables are in season, visit Foodland Ontario's Availability Guide.

Western University Centre For Education Research & Innovation Has Released A New Study On The Award Winning Local Supportive Outreach Services (S.O.S.) Program

The study report was presented to Grey County Council by its authors Dr. Cristancho and Dr. Eby at the July 10 committee of the whole meeting.

The report highlights how S.O.S. operates differently from conventional health and social services and the powerful impact the program has had on participants and the broader community.

The S.O.S program is a multi-agency initiative that brings services directly to people who struggle to access services in the traditional way, meeting them where they are, both literally and figuratively.

SOS is not a new service, but a combination of services rooted in reimagining how existing systems can be leveraged to support better outcomes for communities. As communities seek ways to address overlapping crises in housing, health, and social inclusion, the S.O.S. experience offers not just a promising model, but a "powerful call to act differently".

The bedrock of S.O.S is its commitment to building trust, access to sustained, low barrier care and quick action, embedded in community. By working with people, rather than treating patients, S.O.S. ensures it works with ongoing respect and support for clients. Beyond medical treatment, SOS provides true lasting wrap around support through mental health and social navigation supports alongside paramedic and nurse practitioner care. S.O.S meets people where they are at – be that in a park, in encampments or in community meal locations. S.O.S. is a fully mobile format.

At its meeting on July 10th, Grey County council approved a staff report authorizing county staff and Warden Andrea Matrosovics to finalize a funding agreement with the federal government for a grant that will enable the SOS outreach program to expand its operations.

The county has secured \$1,126,700 from a federal program designed to help communities respond to the opioid crisis. With the funding, the county can operate SOS seven days and week and will be able to purchase a dedicated outreach program. The funding will enable the enhancement to the program to be fully funded until March 31, 2027.

The study identified that the success of SOS is based on six key philosophies; lessons that others can use to help support similar initiatives elsewhere:

- Trust cannot be rushed – Relationships are foundational, not optional.
- Partnerships are critical – Impact is amplified through trust and collaboration.
- Leadership creates room for action – Empowering leaders enable bold innovation.
- Flexibility is essential – Effective care adapts; it doesn't follow a script.
- Mobility bridges gaps – Geography should not determine access.
- Sustainability requires investment – Goodwill is not a long-term strategy

The report states that S.O.S demonstrates the potential of mobile, integrated models of support to transform lives and strengthen community resilience.

The report concludes with a powerful call to action. "The question is not whether S.O.S. delivers what it is purported to deliver; it's whether there's courage to sustain it."

The report was conducted between January and June of 2025. The study team conducted 31 interviews with members of the S.O.S mobile team, staff, leaders from partner organizations, County officials, and S.O.S clients.

The project received ethics approval from the Research Ethics Board at Western University.

Meeting People Where They Are: The S.O.S. Story of Community Impact is available in full on the Grey County website as part of the July 10 Committee of the Whole meeting agenda.

Rural Ontario Development Program (ROD) Guidelines - Business Development

The Rural Ontario Development Program has launched a new Business Development Funding Stream designed to help small rural businesses thrive. If your business has 1 to 20 employees and you're looking to grow, adapt, or prepare for the future—this is your opportunity.

Eligible projects can:

- Break down barriers to economic growth;
- Build capacity to attract, retain, and expand your business;
- Strengthen your position to secure investment;
- Support job creation and retention in your community.

Funding details:

- 35% cost-share on eligible project costs
- Up to \$10,000 in funding
- Deadline to complete projects: March 31, 2026

Apply early - funding is limited and will be awarded on a first-come, first-served basis. www.ontario.ca/document/rural-ontario-development-program-guidelines-business-development/selection-process

Saugeen Beach

The welcome sign at one of Ontario's best-known beach towns has changed, marking a turning point in South Bruce Peninsula. As reported by Amanda Margison for CBC News, the overnight update reflects a deeper shift tied to land rights, treaties, and a decades-long legal battle.

Sign changed overnight

Reflecting a court decision last year that confirmed ownership of about 2.2 kilometres of shoreline by the Chippewas of Saugeen First Nation, the iconic Sauble Beach sign was quietly changed overnight. on July 1st. The sign at the end of Main Street now reads "Welcome to Saugeen Beach" in the same red retro lettering of the previous sign.

"What some see as just a sign change is, for us, a symbol of truth, resilience, and the reclamation of what has always been ours," wrote Saugeen First Nation Councillor Cheree Urscheler on social media. "Welcome to Saugeen Beach—where the land remembers, and so do we."

Treaty dispute

According to CBC News, the dispute centres on a historic treaty signed in 1854 between the First Nation and the Crown. The treaty surrendered the Saugeen Peninsula, excluding five reserve territories. However, a 1856 survey incorrectly mapped the shoreline, excluding roughly 2.2 kilometres of land that should have been part of the reserve.

The federal government recognized this surveying error in the 1970s and supported the First Nation's claim. After years of legal battles involving the Municipality of South Bruce Peninsula, the Ontario government, and local families who bought property decades ago, the Ontario Court of Appeal ruled in December 2024 that the federal government breached the treaty and that the disputed land must be returned to the First Nation.

Cheree Urscheler said the change was coordinated through the Beach Advisory Committee, which is composed of Saugeen First Nation community members and resource staff. Urscheler and Sonya Roote, members of the Saugeen First Nation council are co-chairs.

"This change marks an important and long-overdue act of reclamation," Urscheler said.

Ontario Investing \$7.5 Million to Help Businesses Go Digital

The Ontario government is investing \$7.5 million to protect small and medium-sized businesses across the province, helping them modernize and grow by adopting digital technologies. The Digitalization Competence Centre (DCC) helps companies to transition and find made-in-Ontario digital solutions with expert guidance, training and up to \$115,000 in targeted grants.

"Small businesses are the backbone of Ontario's economy, and our government is helping more businesses embrace new technologies that will improve their operations, ensuring they stay competitive in today's digital economy," said Nina Tangri, Associate Minister of Small Business. "Under the leadership of Premier Ford, we will continue to support small businesses in priority sectors like retail, so they can create jobs and grow the economy for everyone."

Delivered by the Ontario Centre of Innovation (OCI), the province is investing \$5 million to support the Digital Modernization and Adoption Plan (DMAP), which helps businesses assess their digital needs and work with a consultant to create a customized plan, with participating companies reporting \$380 million in increased revenue.

Through DMAP, companies can receive a grant of up to \$15,000 to match private investment that supports planning for technology investments. Companies that have completed a DMAP project are eligible for additional funding through the Technology Demonstration Program, which includes a grant of up to \$100,000 to match private investment in purchasing and installing new technologies that support business growth and create jobs.

In addition, \$2.5 million is being invested to support small businesses in the retail sector in areas like online payment systems, inventory management software, customer relationship management tools, digital marketing, cybersecurity solutions and artificial intelligence. The new Retail Modernization Project Grant will provide a flexible grant of up to \$5,000 to be matched by participants adopting new technologies in these areas.

Quick Facts

- To date, the DCC was initially launched in 2022 and has supported 249 DMAP projects in critical industries like manufacturing, information technology and telecommunications, 45 Tech Demonstration Projects, totalling 294 grants over both programs, building a roster of over 100 Digital Adoption Consultants and growing the Ontario Digital Technology Vendors List to include more than 140 Ontario-based companies.
- To apply for the DMAP grant, businesses must be Ontario-based, for-profit companies with up to 499 employees.
- Eligible businesses interested in the Technology Demonstration Program grant must be Ontario-based, for-profit companies with up to 499 employees, completed a DMAP project, and have generated at least \$500,000 in annual revenue in one of the last three tax years.
- To apply for the Retail Modernization Project Grant, business must be an Ontario-based, for-profit retail establishment with a physical store front that has been in business for more than 1 year, generated at least \$100,000 in annual revenue and has between one to 50 employees.

Big Brothers Big Sisters of Grey Bruce & West Simcoe Announces 9th Annual Golf 'Fore' Kids' Sake Tournament to Raise Funds for Youth Mentoring Programs in your Community

Big Brothers Big Sisters of Grey Bruce & West Simcoe (BBBSGBWS) is excited to announce its 9th annual Golf 'Fore' Kids' Sake charity tournament! This year's event, supporting local children and youth, will take place on Saturday, September 27, 2025, at Sauble Golf & Country Club.

Thanks to the continued support of generous sponsors including Scotia Wealth Management, Woodley Care Services, and the Power Workers' Union, this spirited annual event brings together local businesses, community leaders, and golf enthusiasts with a shared goal: to ignite the power and potential of young people across Grey, Bruce and West Simcoe.

By providing school-based, one-to-one, and group mentorship programs, BBBSGBWS makes a real impact—reaching over 550 youth, families, and volunteers each year. Every dollar raised from this event directly supports the expansion of no-cost mentoring programs that help young people build confidence, develop life skills, and feel a sense of belonging.

This year's tournament promises to be a lively and memorable day on the course, complete with friendly competition, exciting on-course contests, and an array of incredible prizes. From hole-in-one challenges to silent auction exclusives and our always-popular banquet celebration, participants can expect a spirited experience—all in support of a powerful cause.

"Each year, Golf 'Fore' Kids' Sake grows in both spirit and impact," says Beth Aubrey, Executive Director. "We're grateful to our sponsors, golfers, and community partners for making this event possible—and for helping us build a stronger future for the youth we serve."

Event Highlights

- Scramble Format: Fun and inclusive for golfers of all levels
- Prizes Galore: Fantastic giveaways from generous local sponsors
- Banquet Celebration: A delicious post-round meal with prize announcements and acknowledgements
- Silent Auction: Exclusive items available for bid with all proceeds benefiting BBBSGBWS
