

Fire Safe VENDOR LIST

**EMPOWERING COMMUNITIES
TO LIVE SAFELY WITH WILDFIRE**

2025

Brought To You By The

California Fire Safe Council

Welcome

Greetings,

It's my pleasure to introduce the California Fire Safe Council's very first Fire Safe Vendor List! This free resource - made possible by vendor listing fees - is designed to connect mission-aligned communities with reputable wildfire mitigation businesses across California. After years of discussion with the organizations we fund and months of interviewing and meeting with a variety of wildfire mitigation vendors, we are delighted to provide this free resource for our community.

Our grantees and community partners - including fire safe councils, fire protection districts, resource conservation districts, counties and cities, nonprofits, and community-based organizations - implement hundreds of wildfire mitigation projects each year across the state. The California Fire Safe Council is proud to offer this free resource as a simplified process to find trusted vendors who can help them achieve their goals.

This inaugural edition features a diverse range of vendors, from well-known and established businesses to emerging innovators offering cutting-edge solutions that we're eager to share. I believe this will prove to be a valuable resource as a directory and a platform to empower collaboration, spark innovation, and create safer communities.

The California Fire Safe Council is committed to providing and expanding this resource. Throughout 2025, we'll roll out additional vendor programs to further enhance opportunities for learning, connection, and growth. Your feedback will be critical as we work together to live more safely with wildfire.

If you're a wildfire mitigation vendor, we encourage you to apply for mid-year entry. Details are available in the "For Vendors" section on page 61.

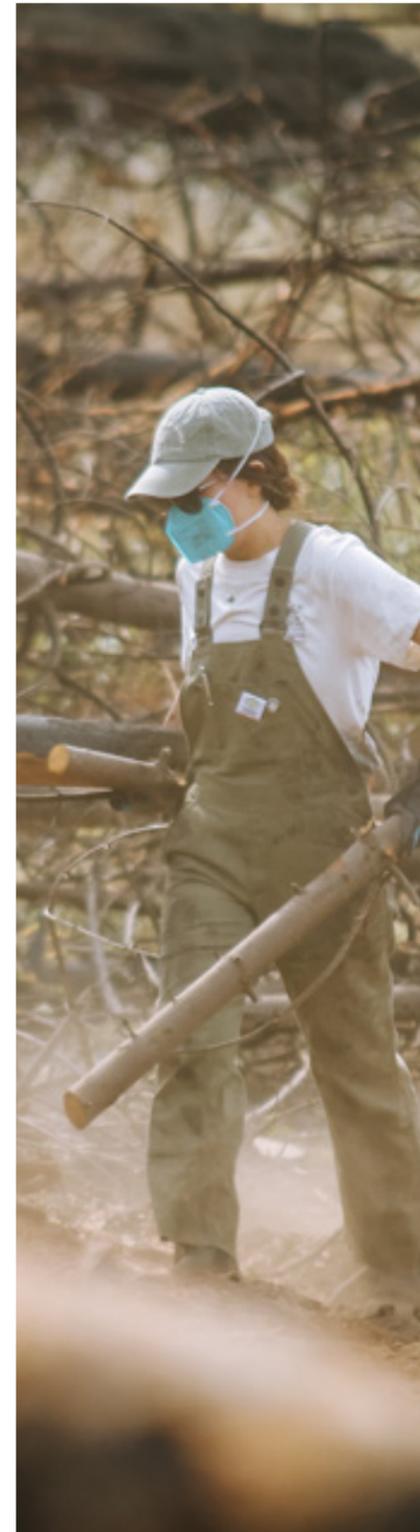

Thank you for utilizing and sharing this important resource. Together, we will create a fire safe California!

Sincerely,

Jacy Hyde, PhD | Executive Director

P.S. Please let us know if you've worked with a vendor included here by emailing emello@cafiresafecouncil.org! We will be compiling feedback for the 2026 publication.

About Us

The California Fire Safe Council (CFSC) is a statewide 501(c)3 nonprofit that informs, empowers, and mobilizes communities across the state working toward wildfire resilience and risk reduction.

We are currently supporting nearly **\$11M** to over **70 active projects** across the state to prepare communities to be fire ready and fire safe.

Questions?

For questions about the publication or the program, please contact Development Coordinator, **Eileen Mello** at **(279) 599-1052** or emello@cafiresafecouncil.org.

Thank You

To Our Corporate Partners!

It is with their generous support that the California Fire Safe Council continues to be a leader in community-led wildfire resilience.

Inclusion Criteria

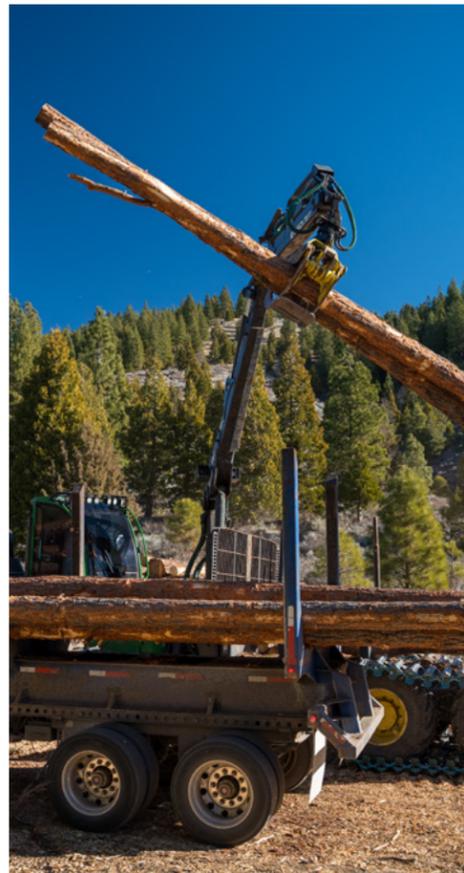

This free resource - made possible by vendor listing fees - connects organizations and people to innovative wildfire mitigation products and services. Each business on the list is checked for several key requirements, some pertaining to their area of service or product.

The basic criteria for selection include:

- Current liability and workers' compensation insurance
- Current business license
- Screened professional references

Additional criteria includes:

- Certification regarding debarment and suspension
- Special business certifications
- Experience working with local Fire Safe Councils

Further Due Diligence

- Please note that the California Fire Safe Council does not endorse or certify the companies or products on this list. You are encouraged to request references and do your own due diligence prior to hiring.
- Organizations utilizing public funds must follow federal or state procurement guidelines. Please follow your organization's internal procurement policies.

Special Thanks

Thank you to the California Fire Safe Council Board of Directors, as well as the staff, grantees, and vendors that helped make this publication possible. We extend special thanks to CFSC Board Members Chris Anthony, Kate Dargan, Chris Ochoa, and Seth Schalet for being part of the advisory panel that launched this publication!

Will You Join Us?

Fire season doesn't have to leave us feeling fearful or helpless. There are measures we can take to keep each other safe. Gifts to the California Fire Safe Council strengthen our networks of dedicated leaders, preparing and empowering communities to live safely with wildfire.

Will you support our efforts by making a tax-deductible gift? [Click here to join us today.](#)

For more information about charitable giving options, please Contact Chief Development Officer, Melanie Hogan at mhogan@cafiresafecouncil.org or (279) 246-1700.

Navigating The List

Here are some tips for finding specific information within the listings, as well as generally navigating the document.

Listings are in alphabetical order by vendor type.

Jump straight to a specific category by clicking on any line of the Table of Contents (TOC) on p3.

Table of Contents: You'll find TOC boxes at the top of every page.

Click on one to quickly jump back to the TOC.

Hyperlinks: Business names, social icons, and email addresses are hyperlinked.

The same is true for our Corporate Partners on p5. Click a logo to visit that business's website.

Search Function: If you're looking for something specific, search the document using the ctrl F shortcut (hit "control" + "F" at the same time).

- For example, if you want to find vendors who service your community, hit "control" + "F", then type in the name of your county and move between vendors who service your region.
- You can also skip straight to a specific vendor type before beginning your search to narrow down your results.

Call Outs: You'll notice two vendor distinctions.

- On the right corner of the vendor header, some businesses have an **EXPO** box. These vendors have chosen to participate in one of our Virtual Expos where they will showcase their products and services. *Virtual Expos are free to the public. Please keep an eye on your inbox for more information about joining us!*
- Our Corporate Partners have an asterisk next to their business names.

Acronyms: You'll notice two common acronyms throughout.

- Wildland-urban Interface (WUI), is the zone of transition between unoccupied land and human development.
- Resource Conservation District (RCD) is a local government agency that works to conserve natural resources.

We hope this list saves you time finding vendors that best suit your wildfire resiliency needs!

For Vendors

It's not too late to be included in this year's publication!

We will be offering a mid-year update to the 2025 Fire Safe Vendor List. A call for applications will be announced in the spring. To be notified, please sign up for our eNews by [clicking here](#) and follow our social channels here:

The 2026 call for applications will launch in the fall of 2025.
