YOUR SATISFACTION

It's our goal to offer you the highest-quality products at the best possible prices in the Chapel Hill area. If for any reason you're not satisfied with a product, please give us the opportunity to make it right—we're committed to your experience and your trust.

If there's a product or brand you'd like us to carry, let a member of our team know. We'll add it to our list of potential partners, and if it aligns with our values and meets our rigorous standards for quality and safety, we'll do our best to bring it on board.

OUR PARTNERS

PURE HEMP APOTHECO

Pure Hemp Apotheco brings together the highest quality hemp-derived products in a variety of formulations and delivery methods. All of our offerings feature full-spectrum CBD, leveraging the natural benefits of the entire hemp plant sourced from leading growers across North Carolina.

With our retail partner Sweet Blossom, we provide a comprehensive selection of rigorously quality-controlled, third-party tested CBD products. Our operations adhere to the highest industry standards for production and safety, ensuring that every product we offer is dispensary-grade and compliant with all applicable regulations.

At Pure Hemp Apotheco, our mission is to deliver effective, natural wellness solutions rooted in science, transparency, and integrity.

MODERN HEMP CO

Modern Herb Co. is widely recognized for producing some of the purest, most effective cannabis products in the industry. What sets us apart is our uncompromising commitment to quality and authenticity—starting with our use of true full-spectrum live resin. Unlike many brands that rely solely on reintroduced terpenes marketed as “live resin,” MHC uses whole-plant extracts derived from fresh-frozen cannabis at the peak of its terpene and cannabinoid expression.

This process preserves the plant's full chemical profile, resulting in richer flavor, deeper aroma, and a more profound entourage effect—delivering not just potency, but a complete and balanced experience.

Every batch we produce undergoes rigorous third-party lab testing to verify purity, consistency, and compliance. Our formulations are free from additives, cutting agents, or synthetic flavoring—just clean, effective, full-spectrum cannabis as nature intended.

At Modern Herb Co., we don't just raise the bar—we redefine it.
