The two lines of THCa Pre-Rolls we carry from Pure Hemp Apotheco (PHA) and Modern Herb Co. (MHC) are made from high-quality THCa flower, no shake, precision-packed for a nice draw and feature curated flavors that our customers love. The perfect way to enjoy a portable smoke.		We produce our live rosin concentrate through a proprietary process avoiding any chemical solvents such as butane or propane. Our extraction process preserves the cannabinoids, terpenes, and other compounds in the plant. The result is a sticky, golden concentrate full of flavor, rich in aroma, and unique in its potency. Because of this, canna-connoisseurs regard live rosin as a top-shelf, high-quality product. There are several ways to enjoy concentrate including vaping, inhaling or using it as an additive.
