

Single pass printing also called one pass printing, is commonly known as a printing method in which the print head does not move and the printing material moves at high speed, no need to scan left and right, saving ink and faster, And it is different from the traditional printing method. It can print directly without plate making, saving labor and plate making and many other expenses. It is suitable for rapid production, small batches, and customized products. For example: cartons, paper cups, gift boxes, cards, pouches, pizza boxes, napkins and other products with high printing demand.

The printing material is transported through the conveyor belt on the machine. The machine is equipped with an infrared sensing device, which starts printing after sensing the material.

Single color, multi-color, and gradient colors can be easily done at one time, with bright colors and realistic patterns. Compared with Flexo printing machine or offset printing machine, digital Single Pass printer also shows its huge advantages, especially Print on demand, meet various market needs on the small orders or big orders.

SINGLE PASS INKJET PRINTER

Ink Costing

1 liter Pigment Ink will cost Rs. 2800.00 + GST

Total Rs. 3304.00 per liter

Normally 12 to 15 ml ink is consumed for 1 sq. m printing

Considering 15 ml ink per sq. m then in 1000 ml ink you can print app 67 sq. m

For 67 sq. m your ink cost is Rs. 3304

For 1 sq. m ?? $3304/67 = \text{Rs. } 49.33$

(approx. Rs. 50.00 per sq. m)

Suppose you are printing a size of 200 mm x 200 mm

i.e 20 cm x 20 cm this equals 400 sq. cm i.e 0.04 sq. m

For 1 sq. m ----- Rs. 50.00

For 0.04 sq. m ----- ?? $0.04 \times 50 = \text{Rs. } 2.00$

Your cost for 200 mm x 200 mm will be Rs. 2.00 per print

Coverage Cost for 200 mm x 200 mm print size

100% coverage	:	Rs. 2.00 per print
50% coverage	:	Rs. 1.00 per print
30% coverage	:	Rs. 0.60 per print
15% coverage	:	Rs. 0.30 per print
