

PI Diagnose

Disengagement often hides in plain sight. PI Diagnose helps you surface issues early with pulse surveys, real-time insights, and science-backed guidance—so you can take action before productivity takes a hit.

7 workplace awards and an improved workplace culture

The screenshot shows the PI Diagnose software interface. On the left, the 'Survey center' is displayed with two survey templates: 'PI Employee Experience Survey' and 'Overall Pulse Check'. Each template has a preview and create survey buttons. Below these are two completed surveys: 'Role Clarity Pulse Survey' (November 14, 2023 - November 30, 2023, 84 responses) and 'Employee Experience Survey' (February 1, 2024 - February 26, 2024, 92 / 120 (76%)). On the right, the 'Analyze' dashboard is shown with various engagement scores and category details. For example, the 'Engagement Score' is 82, 'Job Score' is 90, 'Manager Score' is 84, and 'People Score' is 78. The 'Organization Score' is 83. Each score has a brief description of the category it represents.

Uncover what's driving disengagement—before it spreads

PI Diagnose goes beyond surface-level metrics to pinpoint what's hurting engagement—so you can take focused action and build a stronger culture, one step at a time.

Spot disengagement early

- Use targeted pulse surveys to catch issues before they spread
- Move beyond annual surveys with timely, lightweight feedback
- Keep engagement front and center all year long

Take action with clarity

- Get anonymous insights supported by industry benchmarks
- Follow personalized recommendations prioritized by impact
- Turn feedback into focused action plans with real results

Make engagement manageable

- Launch pre-built surveys in minutes—no guesswork required
- Simplify reporting so you can act quickly and confidently
- Drive a culture of engagement without added complexity
