

A compact and powerful plate compactor designed for efficient soil and asphalt compaction. It delivers strong vibration performance, reliable mobility, and stable operation, making it ideal for construction, landscaping, and roadwork applications.

SPECIFICATION

Model No	0234024
Tamping Depth	30 cm
Vibration Intensity	15 kN
Vibration Frequency	2800–5500 vpm
Grade Ability	< 25°
Walking Speed	15–30 m/min
Working Area	490 × 510 mm
Total Weight	64 / 70 kg
Overall Size	1050 × 490 × 510 mm
Water Tank Capacity	10 L
