SOLUTION IN WIRELESS IRRIGATION

IRRIGATION CONTROL WIRELESS SYSTEM MADE EASY:

Protech EVO — The Smart Solution

Protech Evo, featuring a Transmitter and Receiver, eliminates the need for wires between your irrigation controller and valves. The Transmitter connects to any irrigation controller (multi-wire or two-wire), while the Receiver is compatible with any 9V DC valve solenoid. Provides a wireless range of 200 yards through obstructions (700 yards in line of sight).
