

Protech
GREENZ LLC FZ

Ideal for:

- Replacing lost or damaged wire paths
- Adding zones to existing systems
- Replacing battery-operated timers to centralize your system

No programming or pairing is required. Keep your existing system... simply connect and go wireless.

No trenching. No wires. No limits

Long-Range Wireless Communication

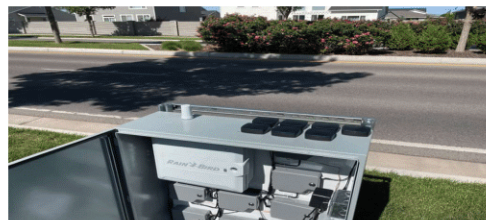

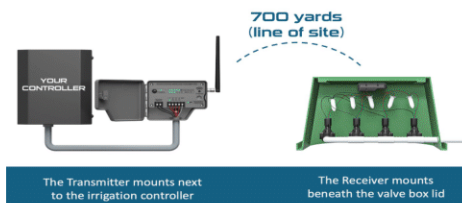

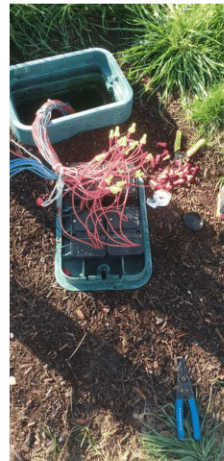

Reliable wireless range at 700 yards line of site, or 200 yards through any obstacles.

Full Compatibility

Works with all multi-wire irrigation controllers as well as 2-wire* (*Our team is here to help. Contact us If you have any questions!)

Adaptable Technology

Manage up to 4 stations per device with ease.
