

Infrared Forehead /Household IR thermometer

Features:

- Special design for screening human fever purpose
- Easy and simple to operate, quick response(0.5s)
- Simply press the trigger and read temperature from the display
- Non-contact and Hygienic without changing cap or touching human forehead to avoid infection
- More accurate reading with 0.1 C/F resolution
- Dual ranges including forehead and normal household application

Applications:

1. Measure forehead/surface temperature
2. Quickly scan groups of people or monitor individuals
3. Measure household surface temperature
4. Non-contact technique reduces potential spread of diseases or cross contamination

P/N: ST 8810

CAUTION: This thermometer is intended for scanning groups of individuals or monitoring an individual for potential elevated temperatures. It is not a substitute for a clinical thermometer. Always use a clinical thermometer when high accuracy body temperature measurements are required.

Specifications:

Temperature Range:	Household: 0...100C (32...212F) 30 ...50C (86...122F)
Accuracy :	0.5 C (30...50C)
Resolution :	0.1 C/F
Response time:	500ms
Power:	9 V battery
Operating Temperature:	25C +/- 5C
Weight:	~135 g
Warranty:	6 months

Ordering data:

P/N: ST 8810 ST8810 forehead thermometer, battery and instruction manual(packaged in whitebox)

Packing details:

Pieces per carton box :	50pcs
Carton dimension:	44x34x71cm
G.W.:	15kgs
N.W.:	13kgs

Country of Origin: Made in Taiwan
