

Letter of Recommendation

November 8, 2025

Admissions Committee

Bergen County Technical High School – Hackensack Campus
200 Hackensack Avenue
Hackensack, NJ 07601

Dear Members of the Admissions Committee,

I am writing to recommend Violet Hampel for admission to Bergen County Technical High School – Hackensack Campus. I had the opportunity to serve as Violet’s reading teacher at Eric S. Smith Middle School, where I observed her steady academic growth, perseverance, and strong desire to succeed.

Throughout the school year, Violet approached her reading and spelling goals with determination and openness to feedback. She consistently worked to strengthen her skills, applying the strategies and tools that best supported her learning. Violet’s ability to reflect on her progress and her willingness to persist, even when faced with challenges, are qualities that distinguish her as a dedicated and resilient learner.

Outside the classroom, Violet has demonstrated creativity and curiosity through her independent pursuits, including video game development, e-bike building, and designing aquatic ecosystems. These interests highlight her problem-solving skills, hands-on aptitude, and enthusiasm for learning—all of which align well with the applied and technical focus of Bergen County Technical High School.

Violet benefits from educational environments that provide structure, encouragement, and opportunities for experiential learning. I am confident that she will continue to thrive both academically and personally within the supportive and dynamic setting that Bergen County Technical High School offers.

Sincerely,

Jennifer Fischer
