

expect quality

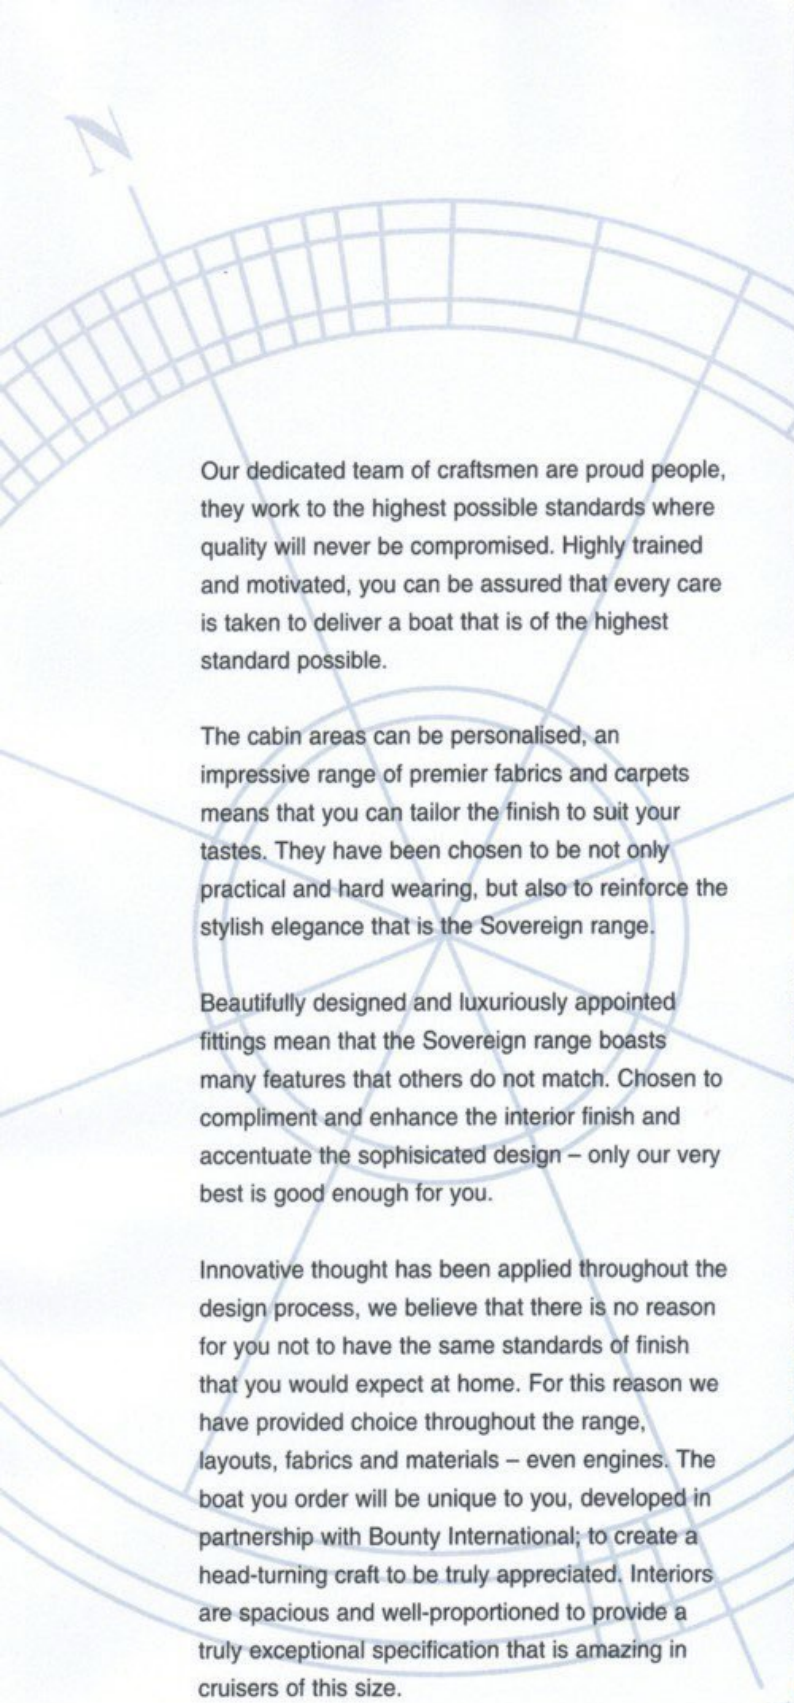

Picture the scene; a late summer's evening on board, slow moving boats slide gently to their moorings as the sunset gilds the landscape with a glow as mellow and golden as the cognac on the afterdeck table. I anticipate the first sip with a feeling of quite exquisite self-indulgence. Distilling a fine cognac produces three different alcohols, the head, the tail and the heart. It is the heart alone which is selected and placed lovingly in oaken barrels, left to age and mature in flavour. The rest is set aside.

It is a principle that reflects our philosophy at Bounty International perfectly. For over three decades we too have put our hearts into our work. Selecting the materials and fittings with care and setting aside that which does not meet our exacting standards. The very essence of our range centres upon quality and reliability, which means your investment is one which will endure the test of time.

Bounty International has one aim, that is to produce elegant and practical boats that are easy to enjoy. Always focusing on what you want from a boat, we design with you the customer in mind, our most valuable asset. Comfort and practicality are prominent features, as is the attention to detail.

Within the range you will find a model and options to suit your needs, we will assist you to discover which of our boats best fits your requirements. You need to be confident that the boat matches your aspirations, we need to be confident that we can match them. Bounty International sells you more than a boat – we sell a lifestyle; and we ensure that throughout our service is never bettered.

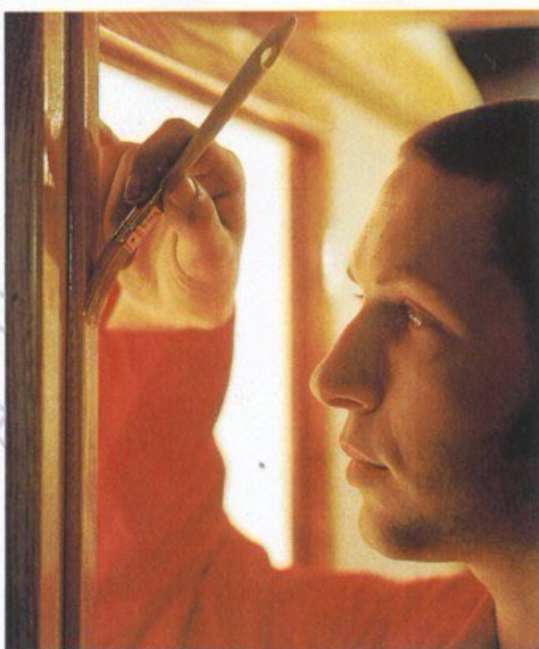

Our dedicated team of craftsmen are proud people, they work to the highest possible standards where quality will never be compromised. Highly trained and motivated, you can be assured that every care is taken to deliver a boat that is of the highest standard possible.

The cabin areas can be personalised, an impressive range of premier fabrics and carpets means that you can tailor the finish to suit your tastes. They have been chosen to be not only practical and hard wearing, but also to reinforce the stylish elegance that is the Sovereign range.

Beautifully designed and luxuriously appointed fittings mean that the Sovereign range boasts many features that others do not match. Chosen to compliment and enhance the interior finish and accentuate the sophisticated design – only our very best is good enough for you.

Innovative thought has been applied throughout the design process, we believe that there is no reason for you not to have the same standards of finish that you would expect at home. For this reason we have provided choice throughout the range, layouts, fabrics and materials – even engines. The boat you order will be unique to you, developed in partnership with Bounty International; to create a head-turning craft to be truly appreciated. Interiors are spacious and well-proportioned to provide a truly exceptional specification that is amazing in cruisers of this size.

sovereign sunbridge

This is a six berth cruiser that positively oozes luxury, style and comfort. She is in a class of her own, with wide decks and spacious interior giving lots of room for entertaining. There are two cabins with wardrobes, lockers and drawers for ample storage. The stateroom comes with an en-suite toilet and shower, a second toilet and shower adjoins the forward cabin. The galley is equally well fitted with hob, refrigerator, sink and drainer; complete with masses of cupboards and drawers for storage.

The Sunbridge boasts an impressive aft deck with upper helm, full canopy and seating for six. All round safety rails and exceptional stability make her safe for all the family.

All in all the Sunbridge is ideal for long, hot summer cruises, entertaining and just relaxing in total comfort.

luxury

sovereign sunbridge

At thirty feet, this cruiser weighs in with an impressive specification; superbly fitted out with all the care and attention that you would expect from a Sovereign range craft.

As a four or five berth boat she is compact and has benefitted from Bounty's innovative use of space to accommodate our usual high specification. The living area is light and attention has been paid to ease of access and space to move around. The dinette makes the conversion to sleep two comfortably.

The aft cabin is thoughtfully laid out and has a range of wardrobes and dressing table. As with all our cruisers the choice of fabrics and colours gives you the opportunity to personalise the interior. The Sovereign 30 has wide decks and good safety features and an upper helm with ample seating for entertaining in style.

elegance

sovereign 34 sedan

The Sedan is a well conceived, mid-sized river cruiser, developed specifically with Europe's waterways in mind. We have added an aft cockpit with seating for eight; ideal for those al-fresco lunches and summer barbecues.

The saloon is delightful, with curved glass windscreen and panoramic windows. The full height double glazed doors ensure that you and your guests will enjoy excellent all round vision, not to mention the light that pours into the spacious living area.

She benefits from two layout options with four or six berth accommodation. As with all our cruisers, the Sedan has had all the skill and knowledge at our disposal lavished on her. The storage, ease of access and handling abilities make her a dream to own and a delight to sail.
