

SUMPTERS SOLUTIONS

CAPABILITY STATEMENT

Structured Janitorial Support & Sanitation Oversight For Public-Facing, Administrative, and Sanitation-Sensitive Environments

COMPANY OVERVIEW

Sumpters Solutions LLC is a Pennsylvania-based small business providing structured janitorial support and sanitation oversight services for public-facing, administrative, and sanitation-sensitive environments throughout Southwestern Pennsylvania. The company supports recurring sanitation operations through consistency-focused service programs, after-hours facility support, and continuity focused sanitation oversight.

Service environments include administrative offices, local government facilities, cosmetology establishments, veterinary environments, healthcare-adjacent spaces, and other sanitation-sensitive commercial environments.

MISSION

To provide dependable, consistency-focused janitorial and sanitation support services that help facilities maintain organized, professionally supported, and operationally stable environments. Powered by the Sumpters Sanitation Oversight System™.

CORE COMPETENCIES

Recurring sanitation support focused on long-term operational consistency.

High-touch sanitation support for public-facing and sanitation-sensitive environments.

After-hours janitorial support structured to minimize operational disruption.

Organized sanitation oversight reinforcing accountability and service continuity.

Floor, restroom, and surface-care support for professionally maintained environments.

DIFFERENTIATORS

Dedicated lead-specialist service model emphasizing accountability, communication consistency, and recurring facility familiarity.

Service structure designed to reduce issues associated with rotating crews and inconsistent staffing.

Documentation focused operational approach emphasizing accountability, operational transparency, and recurring sanitation consistency.

Structured multi-stage sanitation protocols supporting operational consistency and contamination reduction.

Small-business operational structure allowing responsive communication and continuity-focused service delivery.

Proven subcontractor performance supporting long-term operational consistency and dependable issue resolution.

PAST PERFORMANCE

UPMC Medical Facilities — Subcontracted through Anago Cleaning Systems

Provided recurring janitorial and sanitation support services within a healthcare clinic environment.

Maintained long-term recurring service support with consistent positive operational feedback.

Demonstrated dependable responsiveness, issue follow-through, and recurring sanitation consistency within subcontracted service operations.

Supported public-facing cleanliness standards and professionally maintained facility presentation.

KEY PERSONNEL

Reuben Sumpter

Over 12 years of janitorial and sanitation experience supporting public-facing, institutional, healthcare-adjacent, and high-traffic environments.

Professional experience includes ongoing work performed as a W-2 employee within institutional service environments operated under large prime and third-party contractor structures throughout the Pittsburgh region.

Structured Oversight.
Documented Consistency
