

BIIDAABAN: FIRST LIGHT

Virtual Reality experience presented by TRACKS Youth Program

Biidaaban: First Light is an interactive VR project that utilizes Indigenous languages and worldviews to help people understand, as well as literally feel and experience, what Indigenous ways of being and knowing have to teach us about the world and our place in it.

The exhibit will be open during the times indicated below from November 6th through November 9th. Visitors will be admitted on a first-come, first-served basis. The experience is about 8 minutes in duration and the total time of 15 minutes includes the adjustment of the equipment for each individual.

KEYNOTE: BEEDAHBIN PELTIER

On November 7th, join us for a special keynote presentation and workshop with Beedahbin Peltier.

Beedahbin is the founder of Indigenize.ca and an educator knowledgeable in many aspects of medicine, healing, language and more. During this event, Beedahbin Peltier will begin with a short discussion after which participants will get a chance to experience Biidaaban in virtual reality.

ALL EVENTS DURING THIS SHOWCASE ARE FREE OF CHARGE. Donations will be accepted at the door.

See all event details on Facebook (www.facebook.com/tracksyouthprogram) or email operations@tracksprogram.ca for more info
