About US

Landvet Company was established in 2017 and started operations. We as Landvet Company are limited to the trading of Feed additives, veterinary medicines, animal vaccines and general trade.

We import high quality veterinary medicines, feed supplements and animal vaccines from international companies in order to support domestic animal production and improve their products and follow up on the development of products through regular visits to companies in the European Union and the United Kingdom, whose veterinary products and vaccines are considered the best in the world, so we are trying to supply them in the Iraqi market, which will be a factor in promoting livestock production in our country.

Services

- Product Distribution
- Market Analysis
- Quality Assurance
- Customer Support
- Product Training
- Improve domestic animal products

Our company has a lot of expertise in marketing and providing products in all Iraqi cities, most of which includes clinics, livestock projects, poultry projects.

Vision

To be Iraq's leading provider of high-quality veterinary products, contributing to the advancement of animal health and the development of the livestock sector across the nation.

Our Expertise

With years of dedicated service in the veterinary sector, Landvet has developed comprehensive expertise in sourcing and distributing high-quality animal health products. Our strategic partnerships with leading manufacturers in the European Union and United Kingdom ensure that we bring the most advanced and effective veterinary solutions to the Iraqi market. Through regular visits to our international partners and continuous market assessment, we maintain our position at the cutting edge of veterinary medicine developments.
