More **confidence** increased by communication tools

Mobile Apps

The collage displays several screens from the TeleCare mobile application:

- Home Screen:** Greeting for Henriette DUPONT, last visit date 23 décembre 2018 à 11h 25. Widgets for Messages (5), Consultations (2), and Rendez-vous (1). Health metrics: Poids (80 kg) and Tension (11,6 mmHg).
- Navigation Menu:** ACCUEIL, MES ACTIVITÉS, MON PARCOURS, MES MESSAGES, MON PROFIL, À PROPOS, and DÉCONNEXION.
- Calendar:** 'MES ACTIVITÉS' showing a calendar for January 2019 with dates 1-21.
- Weight Entry:** 'Etat de santé général' screen with 'Quel est votre poids ?' and a numeric keypad showing 78,5 kg.
- Messaging:** 'MES MESSAGES' showing a chat interface with a doctor's profile and text messages.
- Profile:** 'MON PROFIL' showing personal information: Nom (DUPONT), Prénom (Henriette), NIR (1234567891011), Téléphone (0102030405), and Adresse (Rue des tournesols).
- Appointments:** 'PARCOURS DE SOINS' showing a list of appointments: RDV avec Dr. J. DUPONT (16:00), Téléconsultation (09:00), and another RDV (16:00).

Tablets

The image displays three overlapping screenshots of the TeleCare mobile application interface. The top screenshot shows a patient's dashboard for Henriette DUPONT, dated December 26, 2018. It features a navigation sidebar on the left and a main content area with health metrics: blood pressure (11.6 mmHg) and weight (80 kg), both recorded on January 17, 2019. A line graph shows a trend in blood pressure over time. The middle screenshot shows the 'MES ACTIVITES' (My Activities) screen, which lists 5 free activities and 3 planned activities, including '10:30 - 10:30 - Infusion DPA' and '12:30 - 14:00 - Infusion DPA'. The bottom screenshot shows a weight input screen asking 'Quel est votre poids ?' (What is your weight?) with a digital display showing 78.5 kg and navigation buttons for 'Précédent', 'Suivant', and 'Annuler'.

More about our Services

IT. Integration. Support

We offer **IT Consulting services** to help you build your solutions, improve your architecture, create a tech-driven digital strategy, and improve operations.

Our experienced technical teams and our partners have the **expertise to configure, deploy and manage** your multiple applications, advanced technologies and your mobile apps as needed. They also **ensure service delivery on time within your budgets.**

Our Services portfolio also include **Support services** with blocks of hours that will help you fix most of your IT technical issues on your users' devices for software installation, upgrades, migration and maintenance of your PCs and mobile devices.

We offer flexible options to partner with you.
