The chair of St Peter is the principle and primary trustee of the Global Estate Trust under whose Jurisdiction the Roman Curiae Operates

THE CITY OF DETROIT, Upper and Lower case, the city in Detroit,

THE CITY OF DETROIT, THE UNITED STATES BANKRUPTCY COURTS, AND UNITED STATES TRUSTEES, ALL UPPERCASE ARE ALL LEGAL FICTION ALIEN TRUSTEES, WHO OPERATE UNDER THE JURISDICTION OF THE ROMAN CURIAE,

The people of the city of Detroit the true creditors at the matter at hand have requested the chair of St Peter intervene to officially object, to the proceedings and to compel to return of the property to the principle for administration in original jurisdiction.

The Creditors in the Bankruptcy The City in Detroit officially object to eligibility of THE CITY OF DETROIT as a DEBTOR for THE FOLLOWING.

The 300 year old city of Detroit is financially solvent as the inhabitants thereof have the ability to pay via set off all obligations when properly presented with a bill as all accounts are prepaid

The legal fiction THE CITY OF DETROIT has failed to tender a valid bill containing a sum certain thereby preventing satisfaction and accord to facilitate the continued economic slavery of the people of the city of Detroit The Bankruptcy petition is intentionally confusing mis-leading and failing to stipulate the specific meanings of the words used in the petition while employing multiple and diabolicaly opposed meanings to the words and the body of the documents identifying the inhabitants as creditors and then debtors with a need to be protected from themselves in bankruptcy

Number three it is less than 80 year old legal fiction THE CITY OF DETROIT a device which has been intentionally mismanaged by politicians, bureaucrats, and consultants, whose word smithing and slight of hand that has cast the inhabitants into economic slavery which intentionally insolvent

THE CITY OF DETROIT is a device created by the Trustees and administrations guardians acting and operating under the administration of the Roman Curiae who having tricked the people into pledging their property as collateral which is fraudulently converted the true creditors into debtors reducing the creditors to the status of insolvent paupers having no rights.

THE CITY OF DETROIT is a legal fiction alien who has hypothecated the credit of the people of the city in Detroit and holds the private matching funds who refuse to execute the set off of debt for settlement and closure of the accounts for the City in Detroit and THE CITY OF DETROIT, to solvency these are two different entities

The immediate setoff of the debt for settlement and closure of the accounts liquidation of the legal fiction THE CITY OF DETROIT and the immediate return of the property via escheat to the principle for administration in original jurisdiction

We have proposed a Detroit Recovery Plan to implement this

As we look around us we can see managing the economic emergency since 1933 has not turned out so well for the people

The emergency management by the Present Civil Administration funded by the good faith and credit of the people has dramatically tarnished the credit and reputation of the people as it has converted the creditors We the People into Debtors and reduced us in status to that as insolvent paupers having no rights

Managing the emergency has given rise to perpetual emergency with increasing more dire consequences casting us all into insolvency

Emergency management by the Present Civil Administration has resulted into the creditors We the People being reduced to debtors and enemies of the state under Trading With the Enemy Act

Under which the Present Civil Administration has waged war against the People the creditors for decades they have waged economic war against the people along with a war against crime war against drugs war against hunger and homelessness and a war against terrorism which has resulted in dramatically increased crime increased illicit drug abuse increased hunger and homelessness and increased terrorism and war

DETROIT is a clear example establishing the evidence that management of the economic emergency delivers to us an even greater emergency with which to manage with all expense to the people the true creditors

Management by the Presence Civil Administration has turned Detroit into what looks like a war zone destroying our neighborhoods our families our family values and our sense of community

The present 14th amendment legal fiction corporate THE CITY OF DETROIT shall immediately settle all accounts zero the debt via set off and make whole all the creditors making the return of the property to the principle and distribute the Mezney funds to the living beneficiaries

An interromere Mayor and City Council shall be appointed and empowered under The Charter of 1857 to make the transition back to solvency

The inter-room government shall be provided the tools necessary to set off the debt and begin the distribution of the Mezney funds thereby returning The People in Detroit to abundance and prosperity
