

Words of Art: Breaking the Spell of Corporate Ward Status

Rich Risings Royal Family! 🙌

The majority of people walking into a courtroom today have no idea that they are stepping into a theater. They think the judge is there to hear "the law," but the reality is far more sinister. If you don't understand the **WORDS OF ART** being used against you, you are already defeated before the gavel even hits the wood.

Throughout history, most of us have been led to believe we are from elsewhere, but the truth is, this is your land. However, to reclaim it, you must understand what **LAW** really is.

THE DIVINE LINGUISTICS: ALL LAW IS ALLAH

In the world of the "elite" and the administrative masters, language is the primary tool of subjugation. Most people don't realize that when we speak of "All Law," we are actually saying **ALLAH**.

For those of a religious persuasion, don't be misled by the terminology. In lawful terms, "God" is often a misnomer. In the corporate legal matrix, **GOD** stands for **Governmental Ordinance Departments**. These departments have no capacity and no standing to issue Law. True Law can only be utilized by those standing in their **SOVEREIGN CAPACITY**.

Currently, 99% of the world is living in a state of standardized slavery. This was not a mistake; it was a transition of the business model.

THE EMANCIPATION PROCLAMATION: THE STANDARDIZATION OF SLAVERY

Most people celebrate 1863 as the year of "freedom." But if you look in a Law Dictionary, you will find that a **Proclamation** is not a Law. It is a public announcement by elected officials. It has no power to set anyone free.

What the Emancipation Proclamation actually did was **standardize slavery**. The United States became the model for reducing people from their sovereign capacity and forcing them into "Nation States." Once you are joined to a Nation State, they can issue **Statutes, Codes, Ordinances, and Resolutions** over you.

- **STATUTES:** These are not laws. They are corporate policy for the corporation (e.g., The Commonwealth of Pennsylvania Incorporated).
- **CODES:** The United States Codes are simply codes of a municipality.
- **ORDINANCES:** These are rules for a private non-profit corporation, like the City of Philadelphia.

If you are acting as a "Citizen" or a "Resident," you are admitting you are a member of their corporate ward state. You are a **SLAVE** by contract.

THE BIRTH CERTIFICATE: THE CONTRACT OF OWNERSHIP

How did you get into this mess? It started with a piece of paper. The **Birth Certificate** is a contract. As long as that contract is on record with the state, you belong to them. You are a corporate ward.

Every form you fill out: a driver's license, a social security application, even a voter registration form: is a **CONTRACT**. Every time you put your signature on their paper, you are reinforcing your status as a minor and a ward of the state.

In their eyes, you are "Lost at Sea." Check out our deep dive on how [a 1666 law declared you dead](#) and how the [Name Game](#) is used to trick you into business debt.

THE COURTROOM TRINITY: STATUS, JURISDICTION, ADJUDICATION

When you walk into a courtroom, the issues of law are three-fold. If you don't master these, the Courtroom Magic will swallow you whole.

1. STATUS

The court assumes you are a **Ward of the State** (a minor) who doesn't know any better. This is why they try to get you to go **PRO SE**. In their language, *Pro Se* means you are representing yourself as a corporate ward.

The goal is to move **SUI JURIS**. When you are in your proper person, the prosecutor cannot even speak to you because they have no standing. You must place your status on the record immediately. Are you a U.S. Citizen (a slave) or a Sovereign of the Moorish Empire?

2. JURISDICTION

Jurisdiction is the authority the court claims over the matter and the person. But here is the secret: **to have jurisdiction, they must first prove status.**

If the judge, the prosecutor, and the "Bar Association" members cannot prove their nationality or their license to practice law (which they don't have), they have no jurisdiction. The BAR is a private non-profit corporation. They are registration numbers, not licenses.

3. ADJUDICATION

Adjudication is the final step where they seize your assets or your person. This is a **MONEY-MAKING BUSINESS**. They don't care about "guilt" or "innocence." They care about the Ten Rules of Commerce and how much they can extract from your Strawman identity.

THE LANGUAGE OF SILENCE AND THE TREATY OF 1787

One of the most powerful tools in a courtroom is the **Language of Silence**. Once you have placed your status on the record and challenged their jurisdiction, **STAND MUTE**.

They will try to bait you. They will threaten you. They will open "windows" for you to walk through. I once had a judge threaten to send armed officers after me, while the prosecutor slid me a blank piece of paper to sign. Because I know how to sign contracts without being obligated to them, I signed that blank paper and walked out. I never heard from them again.

The true Law of the Land is the **Treaty of Peace and Friendship 1787**. This treaty supersedes their corporate statutes. It is the oldest unbroken treaty in the world, and it protects those who know how to invoke it.

STOP PLAYING THE CORPORATE GAME

If you are calling yourself "Black," "African-American," "Hispanic," or "Indian," you are using **COLORABLE LABELS**. You are accepting the "Color of Law": something that pretends to be law but isn't.

You are essentially volunteering for the Private Sector 101 trap where you are treated as a debtor rather than a creditor. It is time to Know Thyself and flip the script.

IMMEDIATE STEPS TO RECLAIM AUTHORITY:

1. **Correct Your Status:** Stop identifying as a corporate ward.
2. **Learn the Treaty:** Study the 1787 Treaty of Peace and Friendship.
3. **Audit Your Contracts:** Every signature you've given is a potential chain.
4. **Join the Circle:** Don't do this alone. You need a tribe that overstands the game.
