

## Saddleworth and the Peak District

The Boarshurst Centre is located in Greenfield, one of the villages which make up the area known as Saddleworth. Situated in the north of the Peak District NP, the centre makes an ideal base for exploring the gritstone edges of Chew Valley and the local moorland. There are low-level walking routes in the valleys and alongside canals and reservoirs.

The traditional villages of the locality have great historical interest. Alternatively Manchester, with its wide variety of attractions, can be reached by a 20-minute train journey from Greenfield station.

Greenfield has several public houses and cafes, a large supermarket and several smaller shops including a newsagent/post office and a pharmacy.

## Saddleworth Outdoor

### Pursuits Association

(Registered charity no. 702185)

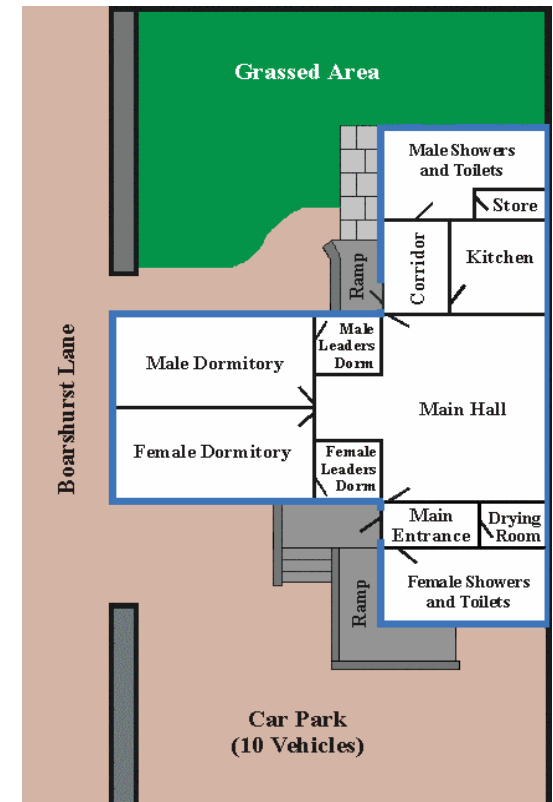

Saddleworth Outdoor Pursuits Association (SOPA) was formed in 1969 to provide accommodation for organised groups. The Boarshurst Centre is available to hire by groups of all ages undertaking outdoor pursuits or educational activities. One of the major aims of SOPA is to promote camaraderie and responsibility through shared experiences and adventure.

## The Boarshurst Centre

The centre is a traditional stone single-storey building which was originally the village school. It provides warm, clean, well-maintained accommodation and is comparable to a Youth Hostel but with the advantage of being for the exclusive use of the visiting group. The centre is accessible to disabled visitors but, due to fire regulations, wheelchair users are not allowed to stay overnight.

### Building Layout

## Location

### Accommodation
