## ULTIVAR

### Type

A Mineral Turpentine Soluble Exterior Varnish based on carefully selected resins and UV resistant components.

### Appearance

Ultivar stains the timber and dries to a slightly less than full gloss finish with excellent slip and water-repellent properties.

### Properties and Uses

The name Ultivar is an acronym for "ultimate varnish" which it truly is. Ultivar can be used both internally and externally on all soft wood surfaces. Due to the inclusion of wood preservatives and transparent iron oxide pigments, Ultivar not only nourishes and protects the timber, but stains it to the desired colour.

### Surface Preparation

Essential for good paint performance is a substrate that has been properly cleaned and prepared. It must also be noted that moisture content should not exceed 15%.

### Application Instructions

These instructions are issued as an aid in determining correct surface preparation, mixing and application procedure and should be closely followed to obtain maximum service from the material.

#### 1. New Uncoated Timber

- (a) Apply one coat Ultivar thinned 20% with Mineral Turpentine and allow 24 hours to dry.
- (b) Sand lightly and apply 2 further coats of Ultivar as supplied, sanding between coats and allowing a minimum drying time of 24 hours between coats.

#### 2. Previously Varnished Timber

- (a) Remove all old varnish by either sanding or with Titanium Paint Remover.
- (b) Spot-prime bare areas with Ultivar thinned 20% with Mineral Turpentine.
- (c) Apply 2 full coats of Ultivar as supplied, allowing a minimum of 24 hours drying time and sanding lightly between coats.

<b><u>Application Method:</u></b>	Brush.
<b><u>Spreading Rate:</u></b>	± 10m <sup>2</sup> per litre.
<b><u>Drying Time:</u></b>	Surface dry 4 hours, hard dry 24 hours at 25°C.
<b><u>Cleaning of Utensils:</u></b>	Mineral Turpentine.
<b><u>Packaging Sizes:</u></b>	5 L and 1 L
<b><u>Colour Range:</u></b>	Antique (light brown) , Ebony
