A music update

I am excited to share with you some updates and developments that I have been busy working on. As a dedicated musician and content creator, I have been investing significant time and effort into creating content for my music YouTube account.

One of the key focuses of my recent efforts has been to create material that is suitable for beginners in Piano and Voice. Whether you are just starting out on your musical journey or looking to improve your skills, I aim to provide you with valuable resources and guidance.

Update on Spring singing walks.....

I was hoping to role this out this year, but with everything that happened with my Dad it just wasn't on the front of my mind. So I am looking to role this for Spring 2025.

My dad is now laid to rest and we scattered his ashes in Church in the Wood in Hastings where he grew up and met mum! and thank you for your lovely messages.

Update on my adult Choirs Sing for Happiness & Euphoric Harmony

What I Love About My Choirs....

My choirs are truly remarkable that brings joy and excitement into my life. One of the aspects I love is that there is no stress involved in anything.

Learning beautiful songs that the choir choose, then I work my magic in the music arranging. In addition to teaching choir members how to maximize their potential, I am passionate about helping them excel at singing.

S.F.H has been running for a year now & E.H has been going 18mths, and it has been an incredible journey. During this time, I have noticed significant growth in the choir's ensemble ability. Their sound is now truly lovely, and it brings a smile to my face when I hear them sing.

The choirs are not just a group of talented individuals; it is also a place where we can have fun! We often giggle and laugh, creating an environment where everyone feels welcome and comfortable. It is truly a joy on for me on a Friday morning and a Sunday afternoon.

In addition to our regular choir activities, we have had the opportunity to collaborate with an amazing charity called Goals4GOSH. Our partnership will allow us to perform at various events throughout the spring and summer, and we'd love for you to join us in our fundraising efforts.

One of the key factors that set my choir apart is that we sing completely to backing tracks, which I believe offers a unique learning experience. Using backing tracks allows us to perfect harmonies, timing, and overall musicality. The choir members will learn songs at a faster pace than I would like because I use this teaching approach.

I am sometimes amazed by the beautiful music our choir creates. Knowing that I have contributed significantly to shaping their sound and created something extraordinary with only backing tracks is such a delightful experience.
