WHO'S WHO IN THE EAST

VOLUME II

- 1947

NOTE: Your sketch as it appeared in the edition prepared by the former publishers is below. The new Volume II appearing under the Marquis imprimatur is to be a printing involving extensive revision, planning and preparation, and accordingly is now actively in compilation.

Therefore please promptly note below—on this sheet, beside the proof—any necessary alterations or additions. To obviate the necessity of sending out another printer's copy sheet, please return this one at once, regardless of whether or not changes are suggested.

Whenever possible, future events now known—including changes in appointments or offices—should be anticipated and added to this printer's copy sheet, as so doing conserves critical composing room time and material. Such information will remain entirely confidential until publication.

DO NOT REWRITE the sketch, as it has already been put into a condensed biographical format. Since scattered minor alterations may involve complete rewriting, the editors, because of the difficult re-conversion manpower situation, will additionally appreciate cooperation in minimizing them.
