Monday a.m.

SEA ISLAND - GEORGIA

Dearest Tom.

There has been so much visiting I can't remember what I wrote you. Hope to hear from you soon + that you located my address in that black book. from Mr. Waller in my sitting room. If I remained here long I might like C. gables better than Clearwater. Of course we are meeting the worst people. and except for the Agases they are all from the Southern states (Tenn. Miss + Flo.) - and none sufficiently old to be retired. So there is more money in circulation.

The Agases bought their lovely home during the depression + could sell for almost any price now - but like it so well now they don't want to leave -

A steam shovel is opening up a water way near here. So people can bring in their boats - Helen's Uncle is having it done for he bought up many lots in this neighborhood for \$200.00 apiece - years ago - and held them.

It continues cool - and since we aren't on the beach and I find myself very tired after our "spurt" ^{of Friday} I am going to be quiet today.

While Helen goes to the hair dresses -

My shoulders received all the sun they
could take yesterday - Sunday - for we
visited - ate lunch etc. in our suits in
the garden - Helen played her second game
of golf with three men - (friends of the family)
She is really good at the game it.
It rained last night + is cloudy this
morning, but much warmer.

Please write soon - for I really miss you
very much - and again want to tell you
how wonderful it was of you to let me have
this trip - with oceans of love.
Dee
