

List of Hospitals/Clinics throughout Ecuador

In our printed copy of this document you will find a list of hospitals and clinics located throughout Ecuador. These facilities are neither vetted nor endorsed by the Health Unit. Care may be suboptimal and English speaking providers may not be available. Additionally this list maybe found on the U.S. Embassy website:

<http://ecuador.usembassy.gov/medical-assistance.html>

The hospitals listed below are *suggestions*, not recommendations. Often, no English speaking staff is available. In a medical emergency American citizens can reach an ambulance by 911 or 102 (Quito Fire Department), dialing 131 (Red Cross) or 101 (Police).

A list of many of Ecuador’s hospitals can also be found through the website of the Ecuadorian Ministry of Public Health. This website will show a map of Ecuador where you can click by province and search for medical attention. On the page that follows there will appear a map that reads “Busque Hospitales y Centros de Salud en su Provincia.” Press the province map (on the top right hand side) to find hospitals (hospitales), and/or clinics (centros de salud): http://www.msp.gob.ec/index.php?option=com_content&task=view&id=107&Itemid=106

Also for a quick list of hospitals, see below. Some of the larger hospitals have lists of specific doctors arranged by specialty. **The U.S. Embassy assumes no responsibility for the professional ability or reputation of the persons and medical facilities on this list.** Hospitals listed include some of those used by U.S. citizens in the past whose services have been found satisfactory and who may have staff members who speak English.
