Kingdom of Saudi Arabia | Commercial Registration No. 1010XXXXXX

Date: June 3, 2026

Ref No: SAIS/INV/2026/089

To:

The Visa Section

Embassy of Kingdom of Saudi Arabia in Beijing China

SUBJECT: OFFICIAL LETTER OF SUPPORT FOR BUSINESS VISA AND INVITATION OF CHINESE COUNTERPARTS

Dear Sir/Madam,

This letter is issued to formally document and affirm the strategic business cooperation between our company, Saudi Advanced Industrial Solutions Co. (SAIS), and our esteemed partner from the People's Republic of China, Sinotech Manufacturing and Automation Group. Both organizations have established a robust corporate alliance aimed at mutual growth and technological integration in line with the objectives of the Saudi Vision 2030 framework.

Saudi Advanced Industrial Solutions Co. is a premier enterprise based in Riyadh, Saudi Arabia, specializing in industrial automation, local infrastructure engineering, and high-tier manufacturing supply chain logistics. **Sinotech Manufacturing and Automation Group** is a globally renowned technology corporation headquartered in Shanghai, China, leading the industry in advanced robotic assembly systems, automated precision manufacturing, and smart factory software solutions.

Our ongoing cooperation centers tightly around the technology transfer and local deployment of high-efficiency production lines within Saudi Arabia. Specifically, both companies are co-developing automated systems tailored for domestic industrial facilities, which includes the integration of Sinotech's proprietary software with our local hardware frameworks, onsite optimization, technical training of Saudi engineers, and joint R&D initiatives aimed at pioneering desert-resilient industrial automation components.

To further advance this collaboration, accelerate the current deployment phase, and conclude final commercial agreements for our upcoming quarter-four projects, we have invited our Chinese counterparts to visit our headquarters and production facilities in Saudi Arabia. This in-person visit is critical to facilitate

technical cross-examination, evaluate our factory expansions, and participate in high-level strategic alignment meetings that cannot be effectively managed remotely.

The personal details of the invited delegates and the planned timeline for their delegation are meticulously detailed below:

| | |
|----------------------------------|--|
| Invited Delegate 1 | Name: Mr. Zhang Wei passport No.: XXXXXXXXXXXXX Position: Chief Technology Officer (CTO) Company: Sinotech Manufacturing and Automation Group |
| Invited Delegate 2 | Name: Ms. Li Xiuing passport No.: XXXXXXXXXXXXX Position: Senior Director of Global Partnerships Company: Sinotech Manufacturing and Automation Group |
| Planned Visiting Period | From July 10, 2026 to July 25, 2026 (Total duration: 15 days) |
| Specific Purpose of Visit | To perform a comprehensive technical assessment of SAIS industrial plants in Riyadh and Dammam, oversee the deployment of the joint automation pilot system, sign the formal expansion agreement, and fulfill critical project milestones required for government regulatory compliance. |

Saudi Advanced Industrial Solutions Co. confirms that it will fully sponsor this visit and will bear all associated operational costs during their stay in the Kingdom, including premium business accommodation, local logistics, transport, and medical insurance coverage.

We kindly request your office to extend the necessary administrative support and facilitate the issuance of business entry visas to the aforementioned delegates at your earliest convenience to avoid any disruption to our project timelines.

Thank you for your continuous cooperation and support.

Sincerely yours,

Abdulrahman bin Fahad Al-Saud
