English

Heel Protector with Wedge Stabilizer

9538W

The **NYOrtho ZERO-G Heel Cloud™** is designed to reduce pressure on the heel during prolonged lying. The heel guard has a heel opening and a side opening. The heel opening reduces pressure on the heel and on the bony prominences on both sides of the ankle. The side opening makes it possible to see and monitor the heel area without touching or putting pressure on the wound.

The hypoallergenic microfiber filling supports the foot and ankles without adding load on the heel. The interior fabric is breathable, water resistant and antimicrobial, wicks moisture and allows airflow.

Model 9538W (with wedge stabilizer), universal size.

Antimicrobial | **Water resistant** | **Breathable fabric** | **DVT openings** | **Heel opening**

ZERO-G Heel Cloud | Heel Protector with Wedge Stabilizer

Details

Product family: NYOrtho ZERO-G

Product name: Heel protector with wedge stabilizer (ZERO-G Heel Cloud)

Model: 9538W (with wedge stabilizer). 9538 is the standard model

Intended use: Recommended for patients with a cognitive and/or physical limitation that prevents them from changing position or reporting discomfort, during prolonged immobility

Features

- **Nylon exterior fabric** that can be wiped clean.
- **Soft interior fabric** with a texture that helps stabilize the heel.
- **Hypoallergenic microfiber filling** supports the foot and ankles without adding load on the heel.
- **Breathable, water-resistant, antimicrobial interior fabric** wicks moisture and allows airflow.
- **Wedge stabilizer** helps prevent foot drop and rotation of the foot.
- **Heel opening** reduces pressure on the heel and on the bony prominences on both sides of the ankle.
- **Side-opening design (patented):** access to the wound area and monitoring, without touching or putting pressure on the wound.
- **Opening foot pad (fall away foot pad):** wide access that gives the care team an unobstructed view of the foot.
- **Three DVT holes:** left, right and center, for attaching DVT pressure devices.
