New UP & UPC hub on Kluwer IP Law

Kluwer IP Law offers a dedicated information hub on the Unitary Patent (UP) and the Unified Patent Court (UPC).

The UP and the UPC are two initiatives that aim to create a single patent system for the European Union, simplifying and harmonizing the protection and enforcement of patents across the member states.

The UP & UPC hub supports:

- **To understand the UP Regulations.** Access multiple commentaries and treaties on the rules and regulations governing the UP, such as the UP Regulation, the UP Agreement, the UPCA Implementing Act, and the Rules of Procedure of the UPC.
- **Strategic Portfolio Management.** Learn how to optimize your patent portfolio and strategy under the UP system, considering the advantages and disadvantages of the UP, the opt-out and opt-in mechanisms, the transitional period, and the coexistence with national and European patents.
- **UPC Litigation Insights.** Equip yourself by utilizing the **UPC Case Law Tracker**. This tool furnishes patent rulings from the UPC. Expert analysts comprehensively document and summarize cases, delivering:
 - Succinct overviews of decisions in English,
 - In-depth English case annotations, and
 - Complete decision texts in their original languages.

Ongoing Monitoring and Adaptation

You can stay updated on any developments or changes in the UP system through our Kluwer Patent Blog, newsletter, white papers and podcasts.
