

# 2020

# IBM TechU

The virtual edition | 26-29 October

## Join us at IBM TechU Virtual Edition to:

- Hear new announcements
- Learn how Autonomous SAN simplifies your life
- See demos of SANnav in action
- Experience the real-life benefits of NVMe
- Access latest papers for Cyber Resiliency solutions
- Schedule meetings with Brocade storage experts

## The Brocade Sessions at IBM TechU

### IBM and BROCADE Co-Presentations

#### IBM Storage and the NVMe Revolution

- October 26th, 11:30 - 12:20 EDT and On Demand

#### Mission Critical Computing Panel Discussion

- October 28th, 11:30 - 12:20 EDT and On Demand

#### IBM Gen 7 SAN from Brocade: Why building a next-gen Storage Infrastructure is critical for 2020's

- October 29th, 10:30 - 11:20 EDT and On Demand

#### Benefits of using 32Gbps Fibre Channel and NVMe with Architecting for the future with Gen 7 FICON your IBM Spectrum Virtualize

- On Demand

### AUTONOMOUS SAN ARCHITECT TRACK

#### On-Demand Sessions

#### Brocade: Architecting Data Capturing Schemes for the IBM b-type Gen 7 Autonomous SAN

#### Brocade: Simplified SAN Management and App Perf Optimization

#### Brocade: Double Application performance on vSphere with NVMe over Fibre Channel

#### Brocade: Using MAPS to make your storage life easier!

#### Brocade: Keys to enhance the performance and availability of IBM Transparent Cloud Tiering Solutions

#### Brocade: Best practices to modernize your SAN Management tool

#### Benefits of using 32Gbps Fibre Channel and NVMe with Architecting for the future with Gen 7 FICON your IBM Spectrum Virtualize
