6. Old Business

- Review the Outpatient Ambulatory Health service standard.
- Scangarello said, “under assessment and service plan was about the initial laboratory testing. We are really seeing a lot more charity care, and the ordering of labs is becoming an issue.” She raised the concern of whether lab ordering should be in the guidelines. Morales responded and stated. “It’s up to the provider discretions and a part of the standards for anyone who isn’t familiar with the service standard. It is why it’s a baseline for medical examination and may take it up to multiple visits.”
 - Updates were made to the Assessment and Service Plan section. “Three site screening if indicated” were added to STI screening and G6PD.”
 - Postel recommended that anything that impacts the outcomes of people with HIV should be looked at and brought to the attention of the COC so it can go to the Ryan White department directly.
 - The approval of this standard was tabled until the next meeting to ensure the correct edits were made.

Commented [CAA1]: These comments were made for "Outpatient" service standard not medical transportation.

7. New Business

- Monitoring for the 2022-2026 HIV Prevention and Care Plan
- Postel reviewed the first Progress Report.
 - As required by the integrated HIV prevention and care plan, The COC Committee must prepare progress reports every 2 months of the outcomes of certain indicators based on current champ data.
 - Goal 1 is to improve the use of existing HIV testing systems by 15% in the EMA.

- Postel found that there was an improvement in linkage to care within 30 days (about 4 and a half weeks).
- Review/ Update Medical Transportation
 - Scangarello made a motion to approve, Dumago second and all were in favor.
