

After the previous years promotion, the 2025 seasons ten team league was stronger than previous years. We struggled at the start adapting to the stronger league and this was added to by availability and injuries. The team made steady progress and real improvements pushing some of the top teams very close. We did very well to survive relegation on the last day of the season with a 2 and 12 record finishing higher than teams with more wins, this shows our ability to collect bonus points. Away from the cricket we showed a good attitude and sportsmanship which was complimented by multiple other teams in our league. Moving on to 2026 the team needs to work on consistency and seeing out close games.
