

Trafford Wildlife financial statement 17th January 2021

This is a brief statement of the financial position of Trafford Wildlife towards the end of the first year of operation.

Income: £979.45

Income has been entirely in the form of donations to the group. £860 has been in the form of monthly or one-off donations from individual members of the group. We are extremely grateful to all those who have made such donations.

£119.45 was donated by Cheshire Wildlife Trust North Group (CWT NG). Several members of CWT NG are now members of TW.

Outgoings: £0.00

The group has made no outgoings so far. Public liability insurance for the first year of operation was kindly covered by CWT NG. Insurance is due again soon and will be approximately £90. TW website hosting fees are £10 per annum, which are kindly being covered at present by Geoff Densham.
