

February 18, 2026 Planning Commission

Meeting was called to order at 7:00 PM

All members were present: Ed Wozniak, Eric Campbell, Dave Miesmer, Steve Heimlich, and Mayor Bailey

Dave Miesmer gave a broad overview of the zoning ordinances and the subdivision rules.

A discussion was made concerning BPA's efforts to make it possible for solar panels to be connected to the power grid. It was stated that there are not currently any regulations specific to solar panels but there are other regulations in place that might somewhat apply.

Eric Campbell stated that the sections in the zoning ordinance concerning signs might be the most troublesome.

It was stated that it takes 60 days for the commission to approve a zoning change.

Dave Miesmer stated that it would be prudent for the town to engage a professional to advise the town on parking.

Mayor Bailey asked the commission to do a review of the zoning ordinance and clean up any troublesome sections. To accomplish this it was agreed that Eric Campbell would generate a list of items that he feels needs to be addressed. These items will be distributed to the commission members and will be discussed at the next meeting.

Meeting adjourned at 7:38 PM.
