About Roller Shutters

Roller Shutter Installations

Manual or electric roller shutters installed with steel and aluminium options available.

Roller Shutter Repairs

24/7 repairs undertaken by our engineers for all roller shutters installed by our engineers.

Roller Shutters

UK Doors & Shutters supply and install high-quality roller shutters for commercial and industrial premises.

- Increased safety and security.
- Temperature control and insulation.
- Improved energy-efficiency.
- Improved productivity and output.

Further Information

Solid security roller shutters for industrial and commercial premises are available in either single phase or 3 phase electrical outputs, manually by hand or with the use of a chain for larger roller shutters.

The roller shutters can have different control options, key switches, rocker switches, push buttons or remote control fobs may be used to operate the roller shutters.

**Anthony
Noonan**

"Just had the shutter installed on our shop premises, brilliant job and cracking lads, would recommend to anyone"

About Auto Doors

Automatic Door Installations

Automatic doors supplied and installed from industry-leading manufacturers and partners.

Automatic Door Repairs

24/7 repairs undertaken by our engineers for all automatic doors installed by our engineers.

Automatic Doors

UK Doors & Shutters supply and install high-quality automatic doors for commercial and industrial premises.

- Activation sensors to improve traffic flow.
- Sliding door panels in many materials.
- Safety sensors to deter dangers.
- Bespoke design to suit your premises.

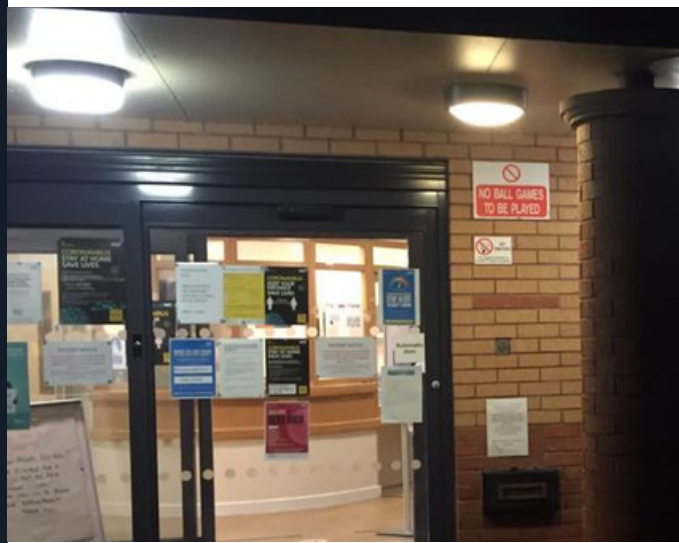

Further Information

UK Doors & Shutters supply and install high-quality automatic doors for supermarkets, casinos, local shops, banks, schools, and a plethora of other commercial premises.

Automatic doors are fantastic for effectively contributing to energy saving and can therefore play an integral part in reducing annual cooling and heating costs. All automatic doors are installed by our fully qualified engineers and fitters.

**Robert
Shirley**

"A very good, reliable and honest company to deal with. They acted very quickly on my call, were very professional and efficient. I would highly recommend."

About High Speed Doors

High Speed Door Installations

Horizontal and vertical high speed door installations are available to suit your specific business requirements.

High Speed Door Repairs

We provide 24/7 emergency repairs around-the-clock so that we can fully secure and repair your High Speed Doors promptly.

High Speed Doors

UK Doors & Shutters supply and install high-quality high speed doors for industrial premises to improve efficiency.

- Rapid opening and close speeds.
- Highly safe and secure.
- Energy saving and temperature control.
- Reduced pollution and contamination.

Further Information

If you're looking for the ideal commercial door to improve productivity flow in an area of your business premises that undergoes a high volume of traffic on a consistent basis, high speed roller doors are paramount.

High speed roller doors are much more effective than standard roller doors in regards to the speed of operation and the functionality.

Trevor Phillips

"I've just had a job completed by UK Doors and Shutters and the service was prompt and professional. Mark was a pleasure to work with and his invoicing very reasonable. I thoroughly recommend them."

About Personnel Doors

Personnel Door Installations

Personnel doors installations constructed made from stainless steel and have heavy-duty hinges.
