SMART ANITMICROBIAL WHITEBOARD PAINT

Support Socially distant collaboration with the world's first dry erase bacteria killer.

We use broad spectrum antimicrobial technology that is effective against gram positive and gram negative bacteria. Effective against MRSA, MSSA, Salmonella typhimurium, Staphylococcus aureus, Escherichia coli, Enterococcus faecalis and Saccharomyces cerevisiae.

Our highly effective antibacterial technology is registered for use by the EU Biocidal Products Directive.

Stay connected, but stay safe.

Why buy smart antimicrobial whiteboard paint?

1. Creates a sterile collaborative whiteboard surface
2. Can withstand medical grade cleaning
3. Supports socially distant collaboration
4. 10 year product guarantee
5. Commercial grade performance, with no ghosting and no staining
6. Dry in hours, ready to use in just 4 days
7. Independent certification for LEED, M1, VOC (less than 12g/l) and Fire

CUSTOM SMART BOARDS

An innovative alternative to traditional whiteboards & glass boards

Enhance your boardroom or office space with our bespoke designed Smart Board.

Like our 'smart walls' our custom smart boards are bespoke and can be designed by our team in any shape or size to suit your requirements. They also have the advantage of being portable so if you need to bring it into another location or want to take it with you during an office move, you can simply pop it off its fixings and replace with ease.

Smart Boards can incorporate your company colours, branding, strap lines and motifs as required. Our Smart Boards will not smudge or 'ghost' like conventional whiteboards.

Enhance your space today.

Why buy a custom smart board?

1. More affordable alternative to glass boards and are shatter resistant.
2. Incorporate your business logo/ branding/ straplines etc.
3. Customised shape or design to suit your requirements.
4. Won't smudge or ghost.
5. Portable - can be moved from one space to another.

Product Features:

1. Easy installation process.
2. Simple to clean.
3. Manufactured in the UK.
4. Magnetic option available.

SMART WHITEBOARD WALL COVERINGS

**Declutter and modernise
your office space for
improved productivity.**

Recreate your office space and the way you work by choosing this fantastic product. You can transform surfaces into a whiteboard by using our Smart whiteboard wall covering thus increasing creativity and productivity with your team, staff or class. You can use our high quality whiteboard markers alongside this amazing product. You can also have your covering corporately branded just like the Smart walls and Smart boards - it even comes with a magnetic version too!

You can install this product yourself or have our professional installation team do it for you. The installation process is quick and the wallcovering can be used immediately. It is a high-quality alternative to traditional whiteboards and flipcharts that outperforms all competitors.

Why buy our writable, magnetic or projectable whiteboard wall covering?

- 1. Make almost any surface writable.
- 2. Easy application, no odour, no mess.
- 3. Impress clients with a top performing dry erase product.
- 4. Performs just like a whiteboard with no size limitations.
- 5. Peace of mind with a 5 year performance guarantee.

SquibbleTop

INTERACTIVE WRITABLE SCHOOL DESKS

SquibbleTop was created for the educational sector, and designed to assist pupil creativity and collaboration in the classroom.

Our new product links in with the current national curriculum and is an excellent accompaniment to early years learning. The bespoke design, which incorporates school logo's/ branding etc, allows pupils to advance learning outcomes by writing directly onto the desk and can be adapted to function in any other learning environment or for any age group.

The template design is specific to the school and/or the user age group. For pupils in pre-school/nursery classes the key emphasis is about colour, shapes, name/ letter recognition, drawing and creativity. In Primary classes - P1 to P3 - the curriculum emphasis moves to number and letter recognition, sentence construction, simple mathematics, handwriting, drawing, basic problem solving and task completion. Our designs allow for all these tasks to be completed by writing on the desk top.

Teachers can photograph the completed work and send it to the pupils account in 'the cloud'. Parents are then shown the examples during parent's events and school visits. To learn more visit us at smarterconcepts.co.uk

To-Do Lists

Designed and branded to your requirements, our writable, erasable 'to do list' are the perfect accompaniment for any desk or workstation. These are purchased in packs of 20.
