

An underwater photograph showing a group of dolphins swimming in clear blue water. A scuba diver is visible in the background, swimming horizontally. The dolphins are in the foreground, swimming towards the right. The word "Presence" is written in a white, cursive script across the top of the image.

Presence

A Sacred Journey
With Wild Dolphins

In the heart of Sataya Bay
Egypt • 2-9 May, 2027

For 7 days, aboard the Nooraya, we invite you to come into resonance with the dolphins, with your presence, your soul-source, Life,

To awaken within you new dimensions of joy, love, fluidity, and unity,

And to welcome whatever naturally reveals itself through this unique experience and a more subtle, expanded perception of reality.

An exceptional, immersive experience.

An international group, immersed in two languages: English and French.

**In the heart of Sataya Bay, in the blue waters of the Red Sea,
hundreds of spinner dolphins await you.**

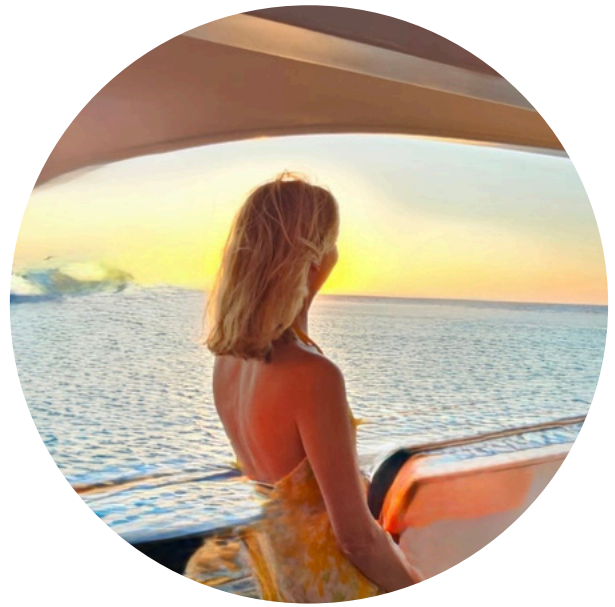

The encounter with dolphins will be the central theme of each day.

Several snorkelling trips will take place each day, offering you the opportunity to encounter the dolphins and to be encountered by them, if and when they choose to approach you. Every encounter is guided by their freedom and willingness, making it authentic, deeply meaningful and filled with profound teachings.

You will also have the opportunity to encounter the coral reef and the surrounding aquatic flora and fauna.

On board the Nooraya, you can relax, integrate, sunbathe on the deck, share with others, let the magic happen.

And of course, there will be the magnificent sunsets, the beauty of the Red Sea, the starry skies, the energy of the group.

Presence

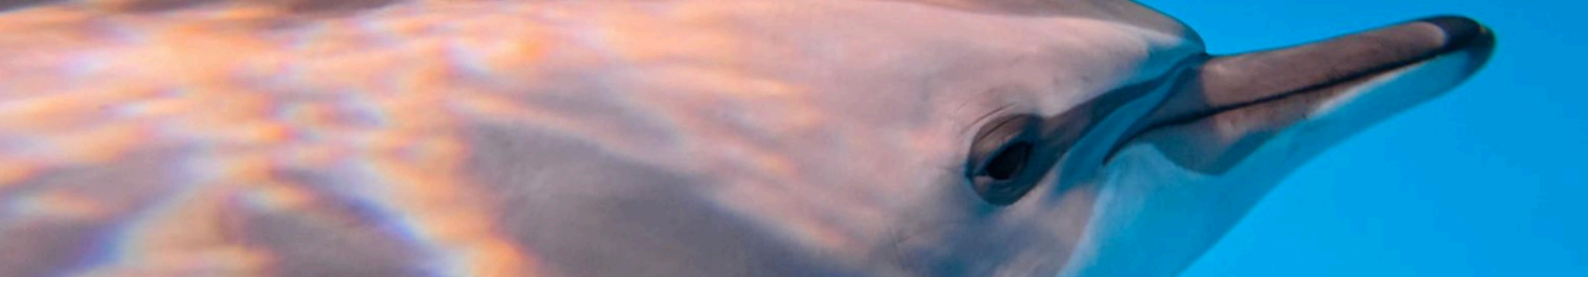

Dolphins invite us to adjust, listen, feel.

**To open ourselves up. To receive. To inhabit the moment.
In their presence, the nervous system regulates itself... the body relaxes...
brain waves slow down... the mind calms down... the heart soothes and
opens naturally.**

**Our perception of time and space is evolving. Other dimensions of being
are emerging.**

**No objective.
No agenda, except that of Life.**

**A full, open and living Presence, from which can arise a more unified
experience, a broader perception of self and reality.**

**We will also have the pleasure
of facilitating spaces such as:**

- Morning Qigong for presence and connection
- Free movement and intuitive dance
- Conscious Breathing and Heart Coherence
- Intuitive communication with the consciousness of dolphins and the surrounding nature
- Spontaneous voice, song of the soul
- Sharing Circles
- Guided Meditations

**Bring your musical instruments if you wish.
They will be welcome.**

Fifteen days before departure, we'll meet on Zoom to get to know each other and begin building group energy and preparing for the encounter with the dolphins. You'll also have access to a short video explaining the basic principles of Qigong for presence and connection before the retreat, if you wish.

**Guided by Axelle and Clair, and a
qualified crew working with awareness
and respect for the environment.**

AXELLE:

For as long as I can remember, I have felt called to explore the mysteries of consciousness and the intelligence of the heart.

I offer soul readings, transmissions and guided meditations to facilitate the return to the living presence within us, and the choice to live from a space of love, coherence and freedom. Over the years, my practice has been enriched through the practice of Humanistic Hypnosis, Symbolic Therapy, Bioenergetic Scanning, Cardiac Coherence, Nonviolent Communication and communication with high frequency Beings.

CLAIR:

My personal path and that of my clients are one. We constantly seek greater coherence, alignment, and harmonious resonance with the natural flow of universal energy. For this is what brings the body, mind, emotions, and spirit to perfect health. For 20 years, I have drawn upon the gifts of traditional acupuncture, numerology, sound, and the wisdom of high-frequency beings to guide my practice.

**You already have an appointment, and have had one for a long time.
All that's left for you to do is embark and let what
awaits you unfold. 🌀❤️**
