OUR GOVERNANCE

Our Council, Culture and History

The Belyuen community is located on the eastern side of Cox Peninsula, approximately 20km south of Mandorah. It is 128 km by road from Darwin.

There are seven language groups: Emmi, Wadigin, Kiuk, Malak Malak, Mendtha, Marriamu and Maranunggu.

The estimated population is 170 people.

The Socio-Economic Indexes for Australia (SEIFA), determined from the data held by the Australian Bureau of Statistics, rank areas in Australia according to relative socio-economic advantage and disadvantage. The most recent SEIFA (2016) ranks Belyuen as the second most disadvantaged council in the country and the most disadvantaged council in the Northern Territory.

In the face of this significant socio-economic disadvantage the Belyuen Community Government Council has been providing a range of community services in addition to the core local government services. On behalf of resident's council continues to strive for job and income security, food security, clean community spaces, and transport maintenance services.

In addition, council collaborates with other agencies delivering health and Medicare services, aged care services, education cultural programs, Centerline services, and other services which protect the basic needs and wellbeing of residents.

The Belyuen community is represented by a council of five elected members.

Belyuen Community Government Council has been seeking avenues by which the potential for future growth can be supported. In November 2017 the Belyuen and Coomalie Councils formed a working group together to pursue a cooperative way forward for their respective areas.

Council

The Belyuen Community Government Council has five elected members, called Councilors. The principal member, called the President, is elected for the term of the Council.

A Finance Committee performs the financial functions of the Council in the months where the Council does not meet. All meetings are held at the Belyuen Council Offices.

All Council meetings are open to the public unless confidential business is being considered. Residents and members of the public are always welcome.

Dates, times, agendas and minutes for all Council and committee meetings are available on the Council's website: www.belyuen.nt.gov.au.

Organisational Chart

The Council will introduce one new position in this financial year with the addition of a part time Finance Officer to the team. The Finance Officer will oversee the day to day financial operations of the council. The position will be funded by a reduction in the contract costs associated with the financial functions of the Council.

Regulatory and Administrative Framework

All local government Councils are regulated by the requirements of the *Local Government Act 2008* and its subsidiary Regulations, Guidelines and General Instructions. In addition, all local government Councils are regulated by the requirements of the Cemeteries Act and Cemeteries Regulations. These are all accessible via the Department of Local Government, Housing and Community Development website at <https://dlghcd.nt.gov.au/local-government>.

In addition to the Local Government Act, the activities of the Council are managed by its policy and procedural framework. The Council periodically reviews its policy and procedural framework to ensure:

- Ongoing compliance with applicable laws
- Practicality
- Cultural appropriateness

The *Local Government Act 2008* and associated guidelines and regulations were extensively reviewed, and the Legislative Assembly approved a new Act that was due to commence on the 1 July 2020. Due to significant disruption arising from the COVID-19 pandemic in Australia, the Minister has delayed the implementation of the new Local Government Act until 1 July 2021.

During the coming year, the Council will be undertaking a full review of its Policy and Procedures to ensure compliance with the new Act. In addition, the Council is developing a new Risk Management framework and establishing an Audit and Risk committee.

The electronic version of Regional Plans and Annual Reports are available for download on the Council's website, they are also for inspection at Council's Office. Printed copies are available for purchase.

Introduction of Business System

A major project to be undertaken in this financial year is the implementation of a new business system for the Council. The new business system will see the Council's financial and business activities moved into a more efficient cloud based product that will improve the management of financial information by the Council and implement a range of efficiencies and control measures recommended by the *Business Case and Process Review* undertaken February 2020.

Constitutional Arrangements

The Council, with the assistance of the Department of Local Government, Housing and Community Services has reviewed the Council's constitutional arrangements as follows:

Social and Economic Effect of Council's Rating Policies

Rates

Belyuen Community Government Council area has forty-eight (48) occupied Lots and one vacant Lot which can be rated and or charged. Only five (5) of the forty-eight (48) are non-government occupied. Of these five (5), one (1) is occupied by Darwin based service providers, the other four (4) are occupied by council operated programs.

Rates have been increased by 2.2% in line with CPI March Quarter 2020.

Council understands that the rates and charges set for 2020-21 financial year are comparable to other council areas.

Rates and charges do have a social economic effect on Belyuen Council and Belyuen people. Belyuen is limited in its ability to rate, therefore only generates small amounts of income. This leaves very little in the way of funds for community funded work and programs, and means council is very dependent on obtaining grants to fund projects for the community. Without being able to successfully apply for grants the council and the community would be in an extremely disadvantaged position.

Charges

The Council is responsible for the waste management services within the community. The Council does not operate a waste management facility and is thus dependent upon external commercial operators to undertake waste disposal activities.

Charges for 2020/21 have been increased by 9.8% to cover anticipated CPI increase to external contract and to provide allowance for skips used by the community for large waste.
