Health Policy up-date

COVID-19

At Neverland Child Care Center we take the COVID-19 Pandemic seriously. We are taking every precaution for our students and staff. We have added to our health policy to fit the growing pandemic.

- ❖ Children's temperature will be taken in the foyer before the entrance to the classroom
- ❖ Children will wash hands before the entrance to the classroom
- ❖ If a child has a temperature they cannot attend Neverland Child Care Center for 14 days
- ❖ If a parent or child has been exposed to someone with Coronavirus they may not attend school for 14 days and need to contact Ms. Chelsea ASAP. If the parent fails to notify the Director about the child or parent being exposed to the Virus it is an immediate termination
- ❖ Fever reducing medication cannot be given to children to attend school. They must stay home if they have a fever
- ❖ Temperatures that are below 98° will be assumed the student has been given a fever reduction medication and will not be able to attend school that day

I have read Neverland Child Care Center's new COVID-19 Health Policy and agree to follow it.
