

*This is the consolidated vocabulary section to accompany
Cara Kernowek Book Four*

Gerva *Vocabulary*

All of the words and phrases in this listing can also be found in the International Phonetic Alphabet, both in web text format and as a pdf for downloading. Go to www.skeulantavas.com/courses-1/cara-kernowek-vocabulary-ipa

The listing is comprehensive for what has been covered specifically in Books One, Two, Three, Four. There is also the specific list of *Colloquial Forms* in Book Three. If you wish to go further, there is always *Gerlyoer Kescows* – a Cornish dictionary for conversation; and most of the translations available on the [lovinglivingcornish](http://lovinglivingcornish.com) website (www.skeulantavas.com) have their own glossaries.

Find *Gerlyoer Kescows* at
www.skeulantavas.com/vocabulary/a-cornish-dictionary-for-conversation

Abbreviations: *adj* adjective, *adv* adverb, *col* collective noun, *conj* conjunction, *f* feminine noun, *interj* interjection, *m* masculine noun, *part* particle, *phr* phrase, *pl* plural noun, *prep* preposition, *pron* pronoun, *quant* quantifier, *v* verb-noun.

Superscript numerals indicate required mutation of following word: ² Second State, etc. ⁽²⁾ means that Second State mutation depends on the overall grammar.

In entries for ordinary nouns, the plural form is also given; except that for collective nouns it is the singulative that is often added. All these singulatives are feminine, with a plural in **ednow**.

Names of cities, towns and villages can be treated as feminine because **cyta** or **tre** or **pendra** can be understood. Most can equally be regarded as genderless (but **Loundres** is *always* feminine). A few transparent names may be treated as masculine or feminine according to their composition – **Penzans** can thus be considered masculine because **pedn** is masculine or feminine because it is a **tre**.

Cardinal and ordinal numerals are listed up to twenty, together with the cardinals for fifty, a hundred, a thousand and a million.

Find a handy reference table of verb forms taught in Book One at
www.skeulantavas.com/grammar/cara-kernowek-1-verb-forms
