# A MODERN, STYLISH, AND DURABLE FENCE PANEL SOLUTION

## Quality Guaranteed - Introducing the new composite fencing solution, by DuraPost.

With innovation at the core of our brand, we introduce DuraPost's new composite solution – the 'Vento'. It's made from up to 70% recycled materials, so not only are the 'Hit & Miss' style panels more durable than the other fencing materials on the market, but they're also more sustainable.

### Ease of installation

Fixing free design! Precision cut steel rails provide rigidity and strength holding the vento slats without additional fixings required.

MADE FROM UP TO 70%  
RECYCLED MATERIALS

### Stylish and contemporary look

a sustainable and durable material but with the finish of rustic timber board

## Why choose DuraPost composite?

- Available as a contemporary 'Hit and Miss' style fence panel
- Available in 3 stylish colours (Grey, Brown and Natural)
- Low maintenance
- Guaranteed for 15 years
- Mould and rot-resistant
- UV stabilised
- Eco friendly (made from 60-70% recycled material)
- Easy to install

### FINISHES

A black composite fence made of vertical panels is the central focus. In the foreground, there are several potted plants, including tall sunflowers and smaller yellow flowers. To the right, a trellis structure is covered in green climbing plants. The background shows a brick wall and a window. The overall scene is a well-maintained garden.
