Based in Warszawa, DKS GROUP LTD is a vendor independent company who specialize in innovative infrastructure service solutions, consultancy and project management.

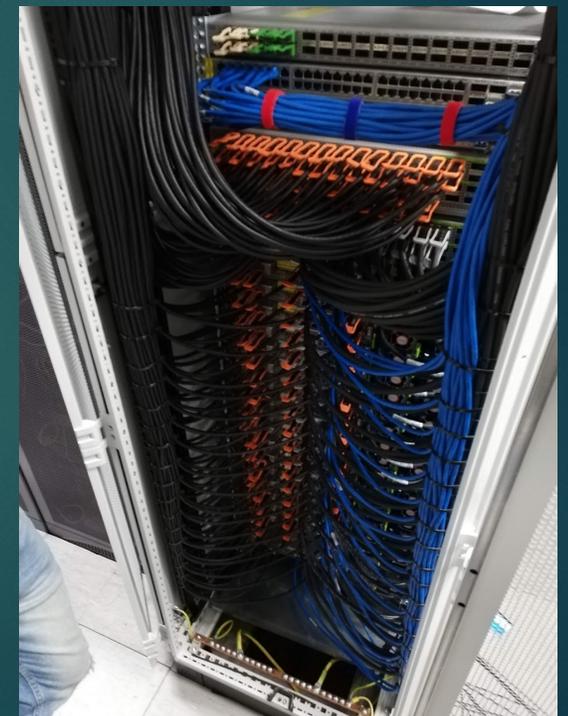

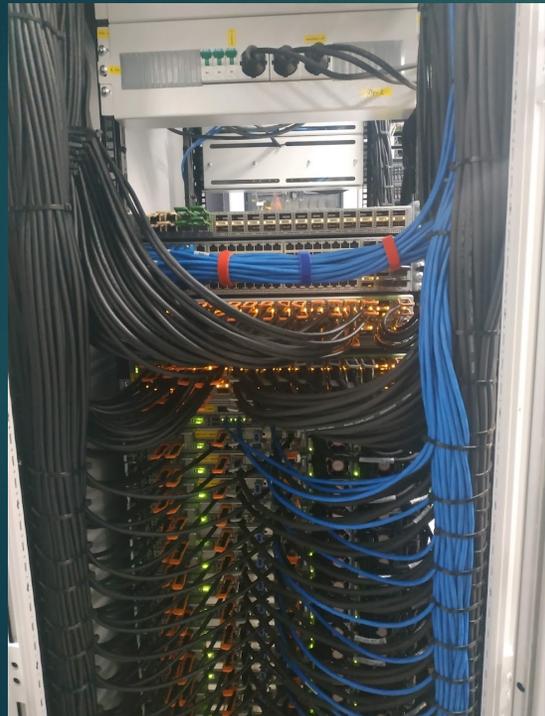

We pride ourselves on our unrivaled experience in the market place, specializing in the design and implementation of best of breed products and service solutions.

Fundamental to our solution(s) is the delivery of the highest degree of resilience and redundancy when involved in the design of any part of the environment. We are committed to a “right first time” approach, achieved by building lasting relationships, gaining awareness / understanding of the business and clarifying their individual, critical business and service needs. We select the best IT and service solutions to match the actual business requirements and not technology for technology’s sake.

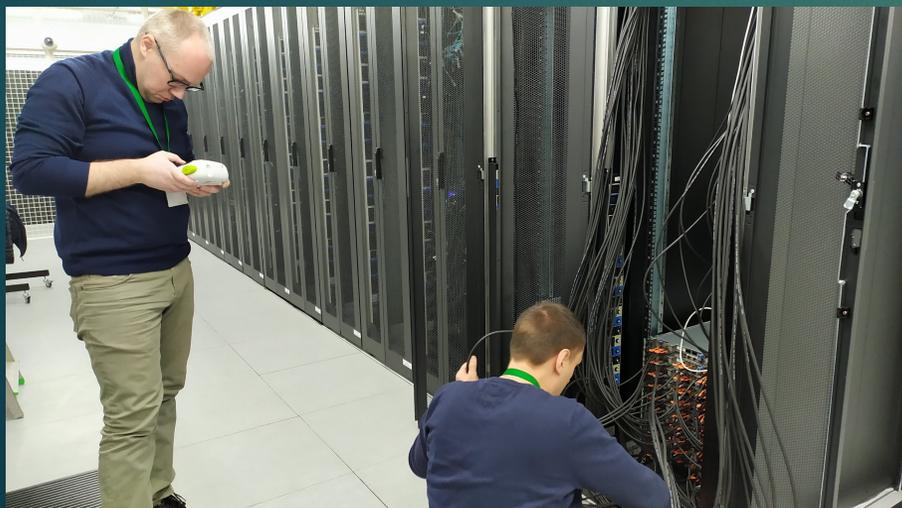

Our company focus is on delivering services and solutions for our clients with the sole intention of maximizing their business advantage. These solutions may well encompass a single or wide range of service or information technologies solutions which will be based totally on the actual client business and therefore IT solution.

- We are working with system integration since 2003.
- Our work is related to such vendors as Cisco, Huawei, HP, Dell, IBM, EMC
- We carry out the entire stage of work from design to installation.
- We always try to offer the most favorable prices.

All work is carrying out by professionals in their specialty.

Extensive experience since 2007 in the system integration market for the design and installation of the core of 3G and 4G communication networks for mobile operators and local area networks for such companies as:

- Mobile TeleSystems PJSC (MTS);
- A1 Telekom Austria Group (Velcom);
- life :)
- BeCloud;
- Itransition Group;
- SaM Solutions;
- EPAM Systems;
- Brewery Heineken N.V. (Belarus, Minsk)
