APRIL 2025

Anniversary Edition: 20 Years of Service

In this 20 year anniversary issue of Quality Care Residential Homes, Inc. we want to take this time to thank our partners, staff and friends for coordination and compassion in this field of social services! Over the years we have serviced 100s of youth and families and assisted with reunification of families along with independence. The agency has also been able to add needed services to foster healing through trauma and strengthening youth as well as families. Quality Care has been able to implement a Performance Quality Improvement program to measure program success and growth additionally in the past 4 years, becoming an accredited organization nationally and a Qualified Residential Treatment Program. This has also been one of the highlights of the agency's success in helping youth. As we reflect on the past and forge towards the future of implementing more services to enhance youth and families programming experience, we thank our partners and congratulate the team on 20 years of service!!

Quality Care: 1st Quarter Updates

Quality Care Residential Homes Inc. has kicked off the 1st quarter of 2025 with great success! Highlights of success include:

- Recertification underway by the Council on Accreditation!
- Stabilization and reunification of over 80% of youth in the program
