

26th International Congress
on Glass
Berlin, Germany
July 3-8, 2022

Sponsoring Opportunities

ICG 2022

Following the first joint meeting of German and British Societies of Glass Technology (DGG and SGT) in Aachen, Germany (1928), the International Commission on Glass (ICG) was set on stage in Venice, 1933, to celebrate the cosmopolitan spirit that has always been at the heart of our community of scientists, technologists, engineers and, sometimes, artists. 2022 will mark the 100th anniversary of the foundation of the DGG, an excellent occasion and a high motivation to organize and host the 26th International Congress on Glass (ICG2022).

ICG2022 provides plenary sessions and 45 technical sessions grouped in 8 symposia and includes the 13th International Congress on Advances in Fusion and Processing of Glass (AFPG2022), a valuable opportunity for glass scientists and technologists.

**The leading Congress
in the Glass Industry.**

Congress at a Glance

Divers & Influential Participants
