Tohatsu Portable Outboard Engines : 2.5hp - 9.8hp

Tohatsu's range of smaller portable outboards offer some unique features not widely available on the market. These include through the propeller hub exhaust to minimise noise. The twist type throttle grip is standard on all models and the front mounted gear lever is key to easy operation. There is a convenient, ergonomically designed carry handle to improve portability. Also now available in this range is the unique LPG powered MFS5C LPG which is leading the way in green technology.
