04 KEY FEATURES

FG CENTER CONSOLE W/ LIVEWELL 01

Fiberglass center console includes a 12-gallon aerated livewell with cushion, delivering a functional command station built for extended field operations.

ALL-WELDED MV HULL 02

3-degree all-welded MV hull in 5052-grade aluminum with flotation pads provides exceptional stability and corrosion resistance across all waterway conditions.

YAMAHA 90/65 JET DRIVE 03

The newest model-year Yamaha jet outboard delivers power trim and tilt, electric start, and a 3-star CARB rating – optimized for shallow-water operations.

MOB+ ENGINE CUTOFF 04

1st Mate or MOB+ engine cutoff system with fabs for both driver and passenger – a critical safety system for all operators on the water.

HUMMINBIRD XPLORE 9 SONAR 05

Pre-loaded with a Minnesota lake chip and transducer bracket, the Xplore 9 delivers precision depth and mapping data – pre-loaded and ready to navigate.

LED NAVIGATION LIGHTING 06

Full USCG and Minnesota-compliant navigation lights: 225° red/green bow light and 360° white stern light on a removable mast at the vessel's tallest point.

TROLLING MOTOR READY 07

Dedicated trolling motor bracket pre-wired with 8-gauge wiring for effortless integration of an electric trolling motor without additional rigging.

DUAL PROPELLER PACKAGE 08

One propeller installed and one matching spare provided – ensuring immediate field-replaceable capability without downtime or additional procurement.

INVASIVE SPECIES READY 09

Smooth-surface galvanized trailer with no marine carpet eliminates aquatic invasive species transport risk, ideal for waterway invasive species compliance.
