

TECHNICAL DIRECTOR: MATERNAL NEWBORN AND CHILD HEALTH – MALI OFFICE

JOB ADVERTISSEMENT: Technical Director: Maternal Newborn and Child Health – Mali office	
TEAM/PROGRAMME: MNCH & NUTRITION	Location : Bamako, Contract Duration : 3 months
TECH 31003/band NN	TYPE of position: National, fixed-term contract

About FHI 360

FHI 360 is a non-profit human development organization dedicated to improving lives in lasting ways by advancing integrated, locally driven solutions. Our staff includes experts in Health, Education, Nutrition, Environment, Economic Development, Youth, Resilience, and Technology, creating a unique mix of capabilities to address today's most complex development challenges. FHI 360 serves more than 50 countries, all 50 U.S. states and all U.S. territories. We are currently seeking qualified candidates for the position of: Maternal, Newborn and Child Health (MNCH) and nutrition Technical Director for a US Government funded health project in Mali.

Project Background

Meeting Targets and Maintaining Epidemic Control (EpiC), a global project funded by the U.S. Government and the U.S. President's Emergency Plan for AIDS Relief (PEPFAR), that provides strategic technical assistance and direct service delivery to achieve HIV epidemic control among all at-risk populations; strengthen global health security (GHS), including outbreak response; expand tuberculosis detection and treatment (TB), improve maternal, newborn, and child health (MNCH), address malaria; and promote health systems strengthening (HSS) including supply chain management.

Job Summary

Under the supervision of the Mali EpiC project Director, the Technical Director for MNCH and Nutrition will provide strategic leadership and technical expertise to develop, implement, and evaluate programs aimed at improving maternal, child health, and nutritional outcomes. The role involves coordinating cross-sector collaboration, ensuring evidence-based approaches, and aligning program activities with national and international health standards. The MNCH & Nutrition Director will also work closely with EpiC Headquarters (HQ) and in-country Maternal Newborn Child Health (MNCH) teams, United States Government (USG) Embassy and State Department personnel, implementing partners, and Ministries of Health (MOH) to ensure timely development and implementation of workplans and technical quality. This role will focus on the delivery of MNCH & nutrition USG-endorsed life-saving interventions for pregnant women, newborns, and children including antenatal care (ANC), postnatal/postpartum care (PNC), Emergency obstetric and newborn care (EmONC), Small and Sick Newborn Care (SSNC), integrated management of newborn and childhood illnesses (IMNCI), integrated community case management (ICCM), early initiation of and sustained breastfeeding, infant and young child feeding, among others.

Accountabilities:

Takes leadership role in the timely development of high quality technical deliverables—including workplans, semiannual reports, and other reports and papers summarizing project results, submitted and approved on schedule and within budget parameters.

Provides technical direction to evidence-based MNCH and Nutrition programming for facility and community level interventions, based on local and global best practices.

Establishes and maintains partnerships with stakeholders including leading interactions with government institutions, subcontracted organizations, and the donor on a regular basis.

Provides strategic leadership on MNCH and Nutrition policies and programming in ways that are sensitive, beneficial and in harmony with other MNCH country's programs and coordinating mechanisms.

Contributes to program/project design, implementation, learning, and monitoring and evaluation through a collaboration with project teams and the Government of Mali (GoM) structures at central, regional, district and facility levels.

Provides technical guidance and support to program teams, partners, and stakeholders in alignment with policies, USG government regulations and approved life-saving activities, and FHI 360's policies and procedures.

Contributes to policy development, advocacy, and strategic planning at the national and regional levels

Manages the monitoring and evaluation program performance, producing reports and recommendations for improvement.

Develops and implements processes and procedures to achieve strategic technical goals of the project.

Responds to client requests and questions on technical matters

Promotes project success by collecting, writing, and distributing success stories, case studies, photos, and outreach at events.

Attends informative events related to the subject matter or region of a project to network and learn information that could be valuable to project activities.

Supports knowledge management within the project, including the capture and articulation of success stories, best practice and lessons learned.

Supports performance management and professional development of direct reports, including ongoing feedback, coaching and career support.

Performs other duties as assigned.
