**First Early Potatoes**

First early potatoes mature in 60-110 days. Planted towards the end of March, they are ready for lifting from late June or early July. Potatoes can be planted from mid-March onwards as a rough guide dependent on weather.

**Second Early Potatoes**

Second early potatoes mature in 110-120 days. Planted mid to late April, they will be ready for harvesting from early to mid-August. Potatoes can be planted from mid-March onwards as a rough guide dependent on weather.

**Maincrop Potatoes**

Maincrop potatoes mature in 125-140 days and if planted in late April can be harvested by mid-August, continuing through to October. Potatoes can be planted from mid-March onwards as a rough guide dependent on weather.
