| <p><u>0.0:0.18</u></p> | <p>in the history of humans. He made a complete social change, great ethical change, a total change in the beliefs, a radical change in the situation of women from being buried alive to leadership. He made a tremendous scientific renaissance that reached Europe through Andalusia.</p> <p>We have a dark noisy background and hear fighting weapons sounds. We see in typo words: war, misunderstanding, hate, extremism. The dark background fades out starting from center to edges. At the edges will still be black. We see man holding a baby crying and he is going to bury her in a hole. The man stop for few seconds holding the baby, looking away as he look at someone. Once again the screen becomes black. We then see clear Europe map, we highlight Andalusia.</p> |
| <p><u>0.18:0.23</u></p> | <p>He united the Arabs together and they diminished the empires of the Persian and Romans.</p> <p>A castle with Roman architect vanish.</p> |
| <p><u>0.23:0.29</u> <u>6 s</u></p> | <p>The strange thing is that all that happened with a very low cost and a very limited number of lives' sacrifices.</p> <p>We see a landscape of an islamic tomb with just a few funeral plates.</p> |
| <p><u>0.29: 0.48</u> <u>19 s</u></p> | <p>Do you know that wars in which the prophet led were 27? The total number of Muslim lives that died in these wars was 259 and the total number of non-Muslims was 759 which mean that the total number of all the lives died during the prophet's wars was 1018 on average of 12 dead in each war.</p> <p>We see an icon of islamic typical sword and shield and below we write 27. We see the number 27 appearing after we see it written on the screen.</p> <p>On the background we hear again weapons and shields, fighting. On the screen we see a wall splitting the screen in half. On one side we see the islamic moon. In that side we see the number 259. On the other side of the wall we see the number 759.</p> <p>Now, in between the wall, to understand it it covers both sides, we see a tomb, just neutral tomb, with flowers on it. We see the number 1018.</p> |
| <p><u>0.48:0.52</u></p> | <p>Only one woman was killed and nobody was killed among children and old people.</p> <p>We see a group of women with children and old people. The woman in the middle is dressed in white. She will transform in a pigeon and will fly.</p> |
| <p><u>0.52:1.10</u> <u>18 s</u></p> | <p>How did that happen? Here we see a big question mark in the middle of the screen.</p> <p>The prophet changed the long wars to a new military strategy which is called foray and it only lasts for few hours.</p> <p>A sword comes and cuts the question mark fast. We hear the sound of fastness. It will remain the dot from the question mark. We zoom in. The dot becomes a clock and we see the hands of the clock moving hour by hour (just about 3 times)</p> <p>The total hours of war of all the 27 forays were only 42 hours. That means</p> |

| | |
|-------------------------|--|
| | <p>that no foray lasted for more than 5 hours.</p> <p>Behind the hand of the clock that keeps moving and hear the clock sound, inside the clock we see horses running.</p> |
| <u>1.10:1.27</u> | <p>The prophet imposed an innovative military way to reduce the average of people killed between the two parties. An image of lamp first it is not lightened then light come out from it with sound as the lamp turned on " representing that there is new idea" Compare that to the war between the Persian and Romans sound of weapons and army then the word "Persians VS romans appear" under the phrase there is count up till reach 2 million " with the voice telling number of people killed"(602- 628 AD) which resulted into 2 million were killed. Also the China war (734- 755 AD) 12 million were killed. A picture of helmet and written above it china (or flag of china) and a count up till 12 million. Then the images move away from the screen.</p> |
| <u>1.27:1.36</u> | <p>The Fijjar wars resulted into 100 thousands of deaths. image of two swords collapsing and number 100 thousand under it The French revolution resulted into 2 million dead in order to make a political and social change. Number of people appears as they protest, a noise in the back ground and number 2 million appears under them</p> |
| <u>1.36:1.38</u> | <p>Also the Bolshevik revolution in Russia resulted into 13 million deaths. the people of the French revolution vanish and face of lenin or the flag of soviet union appears and the number of 13 million appeared under</p> |
| <u>1.38:1.48</u> | <p>On the other hand, the prophet Muhammad (peace be upon him) made the greatest achievement with the minimum cost. Only 1018 were killed during his time.in the upper side an Islamic moon appears , at first a large number of tombs in the view , one after one disappear until there is a small number of tombs He's the prophet of mercy and tolerance. Tombs transform into flowers</p> |
| <u>1.48:1.53</u> | <p>Since he was born he suffered from persecution of Quraish to him, then his immigration to reach victory before he dies. a man shouting , his expressions as he is expelling someone (we won't image the prophet as it is forbidden in islam)</p> |
| <u>1.53:2.02</u> | <p>During his life he chose peace, mercy and tolerance. He refused any conflicts or clash in Mecca because he believed in peace and there's no violence in Islam. Image of the earth planet then zoom in to the map of EL madina in saudia , we see number of roses and flowers rising</p> |
| <u>2.02:2.09</u> | <p>You may say that the prophet wasn't strong in Mecca that's why he didn't go for clash with them, but we say no as Mecca is a tribal society and the prophet is coming from the strongest family branch in Quraish (Bani Hashem family</p> <p>huge number of people appears one by one till it almost fill the whole screen.</p> |
| <u>2.09:2.21</u> | <p>) but he didn't use this in his favour to create conflicts to reserve the unity of his tribe and not to make a civil war in his home town the people from the last scene split into two groups. He endured the abuse of his own tribe and never made conflicts with them. The two groups unite and become one group again</p> |

|--------------------------------|---|
| | |
| <p><u>2.21:2.33</u></p> | <p>And when he went to Al- Madina he never came back to fight Quraish but they went to him. As Badr, Ohod, Al- Khandak (War zones) were on the borders of Al- Madina.</p> <p>Zoom in reaching the Map of El madina appear and sounds of weapons and battles</p> |
| <p><u>2.33:2.37</u></p> | <p>The verse says “And admonish thy nearest kinsmen” and ended with the hadith “Go, you’re free men.”</p> <p>The verse appear in arabic</p> <p>"و أنذر عشيرتك الأقربين"</p> <p>Then the hadith</p> <p>"اذهبوا فأنتم الطلقاء"</p> |
| <p><u>2.37:2.40</u></p> | <p>Islam is the religion of peace not violence.</p> <p>The word Islam in the middle of the screen rising from it flowers.</p> |
