

ALUMINIUM
PIVOT DOOR

PIVOT DOOR

Pivot doors has a swing motion that rotates on a spindle (pivot) as opposed to a hinge affixed to a frame. Ideal for entrance doors as pivot doors are larger, heavier and stronger than hinge doors.

- Available with sidelight and toplight options
- Varies lock and handle options available
- Glazed with 6.38mm laminated safety glass
- Local, high quality gaskets and seals are used.
