CITY OF YORK COUNCIL

Have Your Say on the Future of Peasholme Green

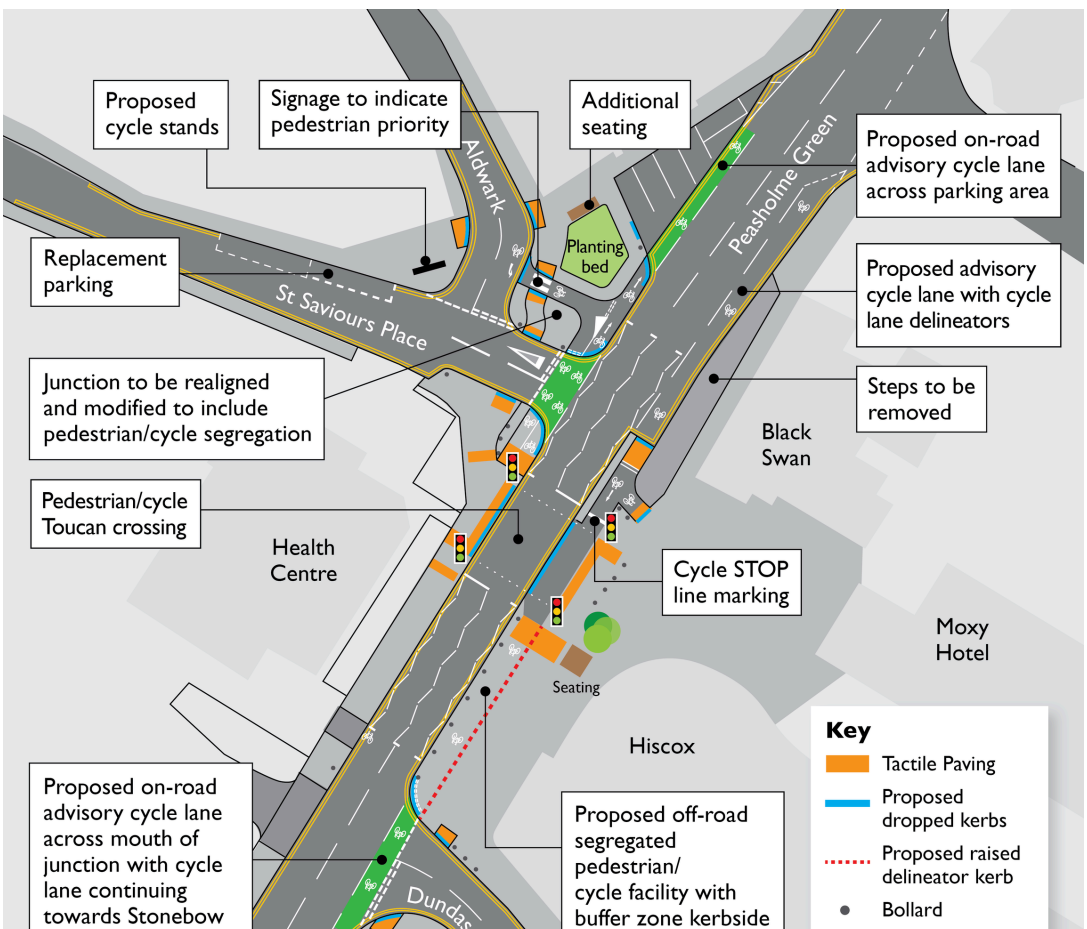

We're inviting residents, businesses, and stakeholders on and around Peasholme Green to talk to us about proposed changes to the highway aimed at improving safety, accessibility, and the overall feel of the area.

These proposals are not final. They are a starting point, shaped by local concerns about road safety.
Your comments will directly influence what happens next.

Proposed changes

- A new toucan crossing on Peasholme Green.
- Lanes segregating pedestrians (including mobility-aid users) and cyclists away from traffic and giving them priority at junctions.
- Modifications to the Aldwark junction to improve connectivity for pedestrians, mobility aid users and cyclists and improve road safety.
- Prioritising cycle connectivity into the city centre on the Dundas Street junction.
- Additional seating and cycle stands.
- Improved signage throughout the area.
- Paving to compliment the setting and proximity to listed buildings.
- Measures to prevent inconsiderate parking on footways, including bollards.
- Changing the position of the raised Edible York flower bed and replacing it with a larger planter that will remain accessible on all sides.
- Road resurfacing and footway improvements.

Your Voice Matters

We'll be attending the local ward surgery in October where you can view the plans, ask questions, and tell us what you think.

Saturday 31 October, 10-11.30am at Hungate Reading Cafe, Hungate, York YO1 7AF

You don't need to book, just come along.

The consultation is open until 23 November.
You can complete the consultation online:
ourbigconversation.york.gov.uk/

Or request a print copy at West Offices

Contact us if you have any further enquiries at transport.projects@york.gov.uk
